"SAFEST DRINKS IN ANY CLIMATE."

**ROSS'S ROYAL
BELFAST
GINGER ALE
AND OTHER
AERATED TABLE WATERS,
WEST INDIA LIME JUICE CORDIAL,
AND
HOME-GROWN RASPBERRY VINEGAR,
AS SUPPLIED TO
THE WHOLE CIVILISED WORLD,
HAVE OBTAINED THE
HIGHEST AWARDS WHEREVER EXHIBITED**

*Are recommended by the Faculty, Medical Journals, and most eminent
Analytical Chemists of the day, and*

WARRANTED TO KEEP IN ANY CLIMATE IF PROTECTED FROM SUN AND FROST.

Extract from the "Colonies and India."

ON more than one occasion in these columns allusion has been made to the high reputation won by Irish firms who supply the great desideratum of Colonial life—pure and wholesome non-intoxicating beverages. Among the makers of these drinks, **Messrs. W. A. Ross & Co.** occupy the foremost place. At their establishment, situated in Belfast—renowned throughout the four quarters of the globe for its Cromac springs—three thousand dozen bottles of Aerated Waters are produced daily for shipment to the whole of the Colonies and to South and North America. Chief among **Messrs. Ross & Co.'s** specialities stands the celebrated Belfast Ginger Ale, its delicate aromatic flavour securing it undivided appreciation from connoisseurs. In regard to the character of the water employed by **Messrs. Ross** in the manufacture of their beverages—a point to which too much attention cannot be paid—the fact that this establishment boasts an artesian well, which reaches a spring of remarkable purity, serves to strongly recommend **Messrs. Ross & Co.'s** productions, from a hygienic point of view, to the favour of consumers. Special advantages are offered by **Messrs. Ross** in connection with the export trade, and the peculiar method of packing, employed only by this firm, being considerably appreciated by buyers in Foreign and Colonial markets; whilst the merit possessed by these drinks of preserving, unimpaired for years, their freshness and flavour, under all climatic conditions, contributes largely to the maintenance of their cosmopolitan reputation. A gold medal—the only one awarded for Ginger Ale—won at Liverpool last year, is the latest addition to the long list of honours which have been secured by **Messrs. Ross** at both European and Colonial Exhibitions, as official confirmation of the encomiums passed upon their manufactures by consumers throughout all parts of the world.

Sole Manufactory: BELFAST, IRELAND.

PART I.

CHRONOLOGICAL NOTES.

Golden Number.....	9		Dominical Letter	F
Epect	28		Roman Indiction	2
Solar Cycle	28		Julian Period	6602

The year 5650 of the Jewish Era commences on September 26th, 1889.

Ramadan (month of Abstinence observed by the Turks) commences on May 1, 1889.

The year 1307 of the Mahomedan Era commences on Aug. 28, 1889.

The Hindoo year 1296 commences on April 13, 1889.

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, in which all the varieties of the Dominical Letters will have happened, and they will return in the same order as they did 28 years before. This Cycle commenced nine years before the Birth of Christ.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle (from Meton, an Athenian, who invented it about 432 years before the Birth of Christ) is a revolution of 19 years; in which time, the conjunctions, oppositions and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number is the number of years elapsed in this Cycle. At the Birth, the Golden Number was 2.

The Roman Indiction is a period of 15 years used by the Romans for the time of taxing their provinces. Three years of this Cycle had elapsed at the Birth of Christ.

The Julian Period contains 7980 years, and arises by multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was also contrived as a period for chronological matters, and is assumed as a correct and fixed rule in calculations by all the Astronomers and Chronologers throughout the Christian world. Its beginning is supposed to have commenced 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

ECLIPSES. IN 1899.

OF SUN, THREE; of MOON, TWO:—

Only one of Moon *visible* in Calcutta:—July 13th—Partial Eclipse of Moon, partly *visible* in Calcutta. First Contact with the Penumbra 28m. 45s. after midnight of the 12th to the 13th. This is one of the most delightful months in the year. The days are cool, the mornings and evenings damp.

The Thermometer ranges in the shade from 53° in the morning to 65° in the afternoon.

In the market will be found beef, mutton, veal, lamb, pork, kid, poultry, &c., of the best and most superior kind.

Game is to be had in great abundance—snipe, duck, teal, &c.

The fish market is well supplied at this season with becky (the salmon of the East), moor-eulish, quoye, sowice, sellah, bhois, eels, hampattah, and many of inferior descriptions.

Vegetables of all kinds are in the highest state of perfection, the markets abound with flowers, cabbages, turnips, yams, potatoes, carrots, spinach, greens, cucumbers, radishes, young onions, knol khol, kohoo, French beans, seams, brinjalls, red and white beans.

The fruits in season are Sylhet and China oranges, plantains, sugar-cane, mangoes, monde, limes, and goose-berries.

February, 1889.—Twenty-eight Days.

PHASES OF THE MOON.

☾ First Quarter ... 8th, 2h. 51m. 21s.

☾ Full Moon ... 16th, 4h. 10m. 27s.

☾ Last Quarter ... 23rd, 5h. 48m. 33s.

The tide tables are reckoned in Calcutta mean time commencing from midnight to 24, and indicate the highest rise and fall: but the tide still runs up or down for another hour.

The beginning of the present month is generally cool and comfortable, particularly if the northerly winds prevail; the weather afterwards becomes less pleasant, till a change of season takes place about the end of the month.

The Thermometer in the shade ranges on a medium from 58° in the morning to 75° in the evening.

Measles among children are very prevalent during the whole of this month.

The meat market continues good and abundant.

The additional vegetables for this month are asparagus, pumpkins, and young cucumbers—and fruits—mulberries, pail and small water-melons.

The weather gets warmer day by day.

The Thermometer ranges in the shade from 68° in the morning to 82° in the afternoon.

Various operations of husbandry generally commence this month as soon as the ground is moistened by rain; this, however, sometimes happens at the latter end of February, but then it is occasioned by an unusual quantity of rain.

The meat market continues good

Fish is in abundance, and the market has the addition of the gooteah, a small and well-flavored fish.

Green peas and turnips disappear this month; salad, cabbage, carrot, and celery are on the decline, but asparagus and potatoes continue excellent; green mangoes and musk-melons are to be had, also amrah, greens, and water-cresses. Fruit is also plentiful—large water-melons appear about the middle of the present month, and continue in perfection till the middle of June.

The north-westers with thunder, lightning, and rain generally commence about the termination of this month.

April, 1889.—Thirty Days.

The beginning of this month is sometimes pleasant, particularly if the north-westers are frequent; but the middle and latter parts are disagreeable in the extreme; it is one of the bad months in the year. The thermometer ranges in the shade from 80° in the morning to 90° in the afternoon, and when exposed to the sun it rises to 110°.

This is an unfavorable season for meat which begins to be flabby and poor, the fat spongy and yellow.

The fish market has the addition of the mango-fish, a sea fish so called from its annual visit to all the Bengal rivers at this (the mango) season to spawn; it disappears about the middle of July. The carp and mahgoor can also be had in this month.

Potatoes, asparagus, onions, cucumbers, and few cabbage sprouts are the only vegetables to be procured. Water-melons and musk-melons are in great perfection; there is not much fruit now to be had in the market. Green mangoes for pickling, and caranda for tarts are in great abundance.

May, 1859.—Thirty-one Days.

The present is considered the very worst month in the year, the heat being excessive.

The Thermometer ranges in the shade from 85° in the morning to 95° in the afternoon; if exposed to the full influence of the sun's beams, it will rise to 130° and sometimes higher.

The weather this month is most oppressive, especially the latter half; the wind continues southerly and the heat is scarcely bearable. Of all the months in the year the present is the most trying. The heat in the first half of the month is sometimes relieved by north-westers accompanied by refreshing showers.

The meat market is very inferior to last month.

The fish market continues good and abundant, the beekty excepted. Mangoe-fish is in great perfection this month.

Asparagus, potatoes and cabbage sprouts with indifferent turnips, sweet potatoes, cucumbers, and onions are nearly all the vegetables now in the market; pumpkins and cucurbitaceous roots are, however, procurable.

Peaches, pine-apples, limes, loquats, rose-apples, mangoes, jack, lichees, star apples, wampees together with water-melons, musk-melons, pomegranates, papia, custard apple, &c., are

June, 1889.—Thirty Days.

The South-West monsoons with the periodical rains set in about the middle of this month.

The Thermometer in the first part of this month rises frequently to 99° in the shade at noon; from about the 15th, if the rains commence, the heat subsides.

The weather throughout the whole of this month is pleasant or oppressive, according to the quantity of in-fall; if the weather be dry, the heat is scarcely bearable; it is generally very close; not a breath of air from any quarter; but if the rains commence, as they are expected to do (in regular seasons) between the 10th and 20th of the month, the air is refreshing, and the weather not uncomfortable.

Meat, as must be expected, very indifferent.

The fish market much the same as last month.

Asparagus and potatoes, onions and Indian corn are the principal vegetables that remain.

Mangoes and mango-fish are in great abundance and perfection. Bombay mangoes can be had in the market this month; they come next to the Malda in flavor and quality. Peaches, lichees, &c., appear this month. Custard-apples, pine apples, jack and guavas are in great perfection.

July, 1889.—Thirty-one Days.

This month is attended with much rain; the winds are light and variable; weather frequently gloomy, and sometimes stormy with heavy falls of rain; whilst at intervals, it is fair, mild, and the temperature agreeable.

The Thermometer ranges in the shade from 80° in the morning to 80° in the afternoon.

Meat continues lean and poor.

The fish market continues good. The moonjies, the rowe, the cutia, the quoye, the sowlee, the mahgoor chingroe, the tangra, and the chunah are procurable all the year round. The bilse (or wble) fish makes its appearance this month; this fish is delicious either boiled, baked or roasted, but it is very rich. This fish on being cured with tamarind forms a good substitute for herrings; it is then known by the appellation of the "Tamarind" fish.

The vegetable market is very indifferent—asparagus is in season, but potatoes become poor and watery. Young lettuces, cucumbers, and sweet potatoes are now procurable; also cumranga and corunja.

Vangoos and mango fish both disappear this month.

Fine apples, custard apples, jacks, and guavas continue in season. The genuine Valda mangoes may be had this month; they are unblighted, the best, and are large sized and truly to be had.

August, 1889.—Thirty-one Days.

PHASES OF THE MOON.

☾ First Quarter ... 4th, 7h. 20m. 15s.

☾ Full Moon ... 11th, 10h. 36m. 15s.

☾ Last Quarter ... 18th, 4h. 44m. 51s.

● New Moon ... 26th, 7h. 53m. 27s.

In the present month rain is most copious.

The Thermometer ranges in the shade from 80° in the morning to 90° in the afternoon.

Light and variable winds prevail during the month; occasionally thunder and lightning.

The meat and fish market much the same as last month.

The vegetables procurable are salad, asparagus, cucumbers, brinjalls, muckun seam (a kind of French beans), radishes, turnips, cabbage sprouts and some indifferent potatoes; Indian corn, cucumbers, spinach and such like are to be had all the year round, but they are tasteless, except at this season when they become firm and palatable.

Pumpkinose (shaddock) appears this month; pine-apples, custard-apples and guavas continue in perfection; avigato pear is sometimes procurable.

September, 1889.—Thirty Days.

PHASES OF THE MOON.

The rains commence to subside during this month.

The wind continues light and variable, attended with occasional cloudy weather.

Day and night equal on the 22nd of this month

The Thermometer ranges from 80° in the morning to 85° in the afternoon.

The meat market much the same as last month.

The fish market experiences but slight improvement, for although there is abundance, yet it is not always firm and good, except the heekty, which becomes larger and better flavored. The following are also in the market: the bhola, deasy tangra, gonteah, bhengris, gongtoruh, kowathoutee, pyrah-chanda, also shell fish (lagha chingree).

Vegetables are very indifferent; yams generally come into season about this time.

Custard-apples, pine-apples, guavas, and pumplinose continue in season.

October, 1889.—Thy-one Days.

The first half of this month generally yields a good supply of rain, and the rainy season breaks up generally by the middle of the month.

The Thermometer ranges in the shade from 78° in the morning to 85° in the afternoon.

The winds are in general light and variable during the month, veering from South to N. W., thence to North and N. E.

As soon as the weather sets in fair, it is the proper time to commence gardening.

The meat market begins to revive, and the fish market to improve, the beeky becomes firm and the other fishes proportionably good; snipes make their appearance.

Vegetables and fruit continue much the same as last month till the latter end of the present month, when, if the season is favorable, both experience a considerable improvement.

The weather is clear and settled, and most delightful. This and the two succeeding months can hardly be equalled in any other country for their mild and genial character.

Light northerly winds prevail this month.

The thermometer ranges from 70° in the morning to 75° in the afternoon.

The meat market looks wholesome; beef, mutton, veal, pork and poultry become firm and good.

Game comes in also this month in considerable quantities—wild duck, snipes, teal, &c.

Fish is procurable in abundance, such as beekty, banspattah, gongtorah, mirgal, carp, and mangoe-fish without rose.

The vegetable market begins afresh this month by the introduction of green peas, new potatoes, lettuce, greens of different kinds, spinach, radishes, and turnips.

In the fruit market may be had oranges, lemons, pumpkins, custard-apples, papias, plantains, cocoa-nut, country almonds, pomegranates, kuthbul, &c.

The weather continues cool and pleasant throughout the month, with a light northerly wind.

The days and nights are cold and clear.

The thermometer ranges from 65° in the morning to 70° in the afternoon.

The meat and fish markets are in great perfection, both as to quantity and quality; game of all kind in abundance.

The vegetable market is excellent, yielding green peas, young potatoes, lettuce, young onions, radishes, small salad, sweet potatoes, French beans, scums, brinjals, yams, carrots, turnips, greens, young cabbages, and cauliflowerers.

The fruit market continues much the same as last month. Gooseberries (tipperae) make their appearance this month, together with bail and other fruits.

COINS, ENGLISH AND BENGAL WEIGHTS AND MEASURES.

I.—COINS.

BRITISH INDIAN MONEY.

12	Pie or 4 pice make	1	Anna.	A.
16	Annas	1	Rupee.	R.
16	Rupees	1	Gold-Mohur.	G. M.
100,000	Rupees	1	Lac.	
100	Lacs	1	Crore.	

The Rupee weighs 180 grains Troy or 1 tolah and is composed of 11 parts of silver and 1 of alloy.

The Gold-Mohur is of the same weight as the Rupee.

The Copper coinage consists of the $\frac{1}{4}$ anna piece or double pice, the $\frac{1}{2}$ anna or pice, the $\frac{1}{4}$ anna or half pice, the $\frac{1}{8}$ anna or pie. Copper coinage is not according to law a legal tender.

Cowries, are small shells used in Bazaars for small payments, &c., and are reckoned thus :—

4	Cowries, C.	make	1	Gunda.	Gun.
5	Gundas	"	1	Booree.	Be.
4	Boorees	"	1	Pun.	Pn.
16	Puns	"	1	Kahun.	Kn.
4	Kahuns	"	1	Rupee.	Re.

Cowries.

4 = 1 Gunda.

80 = 20 = 1 Pun.

1280 = 320 = 61 = 1 Kahun.

These rise and fall in their value according to their abundance or scarcity.

II.—WEIGHTS.

TROY WEIGHT.

24 Grains, gr.	make	1 Pennyweight.	dwt.
20 Pennyweights	"	1 Ounce.	oz.
12 Ounces	"	1 Pound.	lb.

Grains.

24 = 1 Pennyweight.

480 = 20 = 1 Ounce.

5760 = 240 = 12 = 1 Pound.

Gold, silver, jewels, and most liquids in chemical experiments are weighed by this weight.

In weighing jewels and precious stones, the carat of 3 grains Troy is used.

COMPARATIVE TABLE OF TROY AND BRITISH INDIAN WEIGHTS.

British Indian Weights.	lbs.	oz.	dwt.	grs.
One Maund	100
One Seer	2	6
One Chittack...	1	17	12
One Tolah	7	12
One Massa	15
One Ruttee	1875

INDIAN GOLD AND SILVER WEIGHTS.

4 Punko, or quarter grain	make	1 Dhan or grain.	Dn.
4 Dhan	"	1 Rutty.	Ry.
6½ Rutty	"	1 Anna.	A.
8 Rutty	"	1 Massa.	Ma.
100 Rutty, or 12½ massas, or 16 annas	"	1 Tolah.	T.
106½ Rutty, or 13½ massas, or 17 annas	"	1 Gold Mohur.	

Punko.

4 =	1 Dhan.
16 =	4 = 1 Rutty.
100 =	25 = 6½ = 1 Anna.
128 =	32 = 8 = 1 Massa.
1600 =	400 = 100 = 12½ = 1 Tolah.

AVOIRDUPOIS WEIGHT.

16 Drams, dr.	make	1 Ounce.	Oz.
16 Ounces	"	1 Pound.	lb.
28 Pounds	"	1 Quarter	Qr.
4 Quarters	"	1 Hundredweight.	Cwt.
20 Hundredweights	"	1 Ton.	Ton.

Drams.

16 =	1 Ounce.
256 =	16 = 1 Pound.
7168 =	448 = 28 = 1 Quarter.
28672 =	1792 = 112 = 4 = 1 Hundredweight.
573440 =	22840 = 2240 = 80 = 20 = Ton.

Bread, Meat, grocery and goods in general, and all metals, except gold and silver are weighed by this weight.

In general 1 stone = 14 lbs. avoirdupois, but for butcher's meat or fish, 1 stone = 8 lbs. A ferkin of butter = 56 lbs.; 1 fodder of lead = 19½ cwt.; a great pound of silk = 24 ounces; 1 pack of wool = 240 pounds.

4 Powah	"	1 Seer.	Sr.
40 Seer	"	1 Maund.	Md.

Sa. Wt.

5 =	1 Chittack.				
20 =	4 =	1 Powah.			
80 =	16 =	4 =	1 Seer.		
3200 =	640 =	160 =	40 =	1 Maund.	

SQUARE OR LAND MEASURE.

144 Sq. Inches	make	1 Foot square.	Ft.
9 Feet	"	1 Yard.	Yd.
30½ Yards	"	1 Rood, Pole or Perch.	R. or P.
40 Poles	"	1 Rood	Rood.
4 Roods	"	1 Acre.	Acre.
640 Acres	"	1 Square milc.	

Inches.

144 =	1 Foot.				
1296 =	9 =	1 Yard.			
39204 =	272½ =	30½ =	1 Pole.		
1568160 =	10890 =	1210 =	40 =	1 Rood.	
6272640 =	43560 =	4840 =	160 =	4 =	1 Acre.

The square of a number is obtained by multiplying the number by itself ; as 12 x 12 = 144, which is the square of 12.

BENGAL LAND MEASURE.

16 Square Ungooly	make	1 Sq. Mooty =	9 Sq. in.
9 " Mooty	"	1 Sq. Biggot =	81 Sq. in.
36 " Mooty or 4 Sq. biggot	"	1 Gundah =	2½ Sq. ft.
20 " Gundah	"	1 Chittack =	5 Sq. ft.
16 " Chittack	"	1 Cottah =	80 Sq. ft.
20 " Cottah	"	1 Bigah =	1600 Sq. Yd.

A chittack is a square, measuring about 6½ feet on each side, or containing in all 45 square feet. A cottah is a square, measuring about 26½ feet on each side, or containing 720 square feet. A bigah measures on each side 120 feet, and contains altogether 14,400 square feet ; 3 bigahs and ½ cottah equal 1 acre.

The haub by which mats are measured is one cubit wide and 13 long ; it contains 13 square cubits = 29½ square feet.

FERRAH OR COUNTRY MEASURE FOR BUILDING MATERIALS.

The inside measurement of a Ferrah is

$$2' 5" \times 1' 9" \times 8"$$

			B. Mds.	Seers.
1 Ferrah, Stone lime weighs	1	10
1 " Soorkey	"	...	2	5
1 " Sand	"	...	3	4

Purchases of the above description of materials are generally made in the Public Works Department in stacks or heaps, by measurment, taking the cubic contents as follows :—

2.25 or (2½) cubic feet Stone lime, Soorkey, and Sand = 1 bazar maund, or 225 cubic feet to the 100 maunds.

CUBIC OR SOLID MEASURE.

1728 Cubic	(= 12 × 12 × 12) inches	make	1 Cubic Foot.
27 "	(= 3 × 3 × 3) Feet	"	1 " Yard or load of earth.
40 "	Feet of round timber }	"	1 Ton, or Load.
50 "	Feet of hewn timber }	"	1 Ton of shipping.
42 "	Feet	"	1 Ton of shipping.

By this measure are measured all things that have length, breadth, and depth.

WOOL WEIGHT.

1600 =	320 = 80 = 20 = 1 Solly.
25600 =	5120 = 1280 = 320 = 16 = 1 Kahun.

TIME.

60 Seconds	make	1 Minute.	M.
60 Minutes	"	1 Hour.	H.
24 Hours	"	1 Day.	Day.
7 Days	"	1 Week.	Wk.
52 Weeks, 1 day, 6 hours	"	1 Julian year.	Yr.
365 Days, 5 hours, 48 minutes, 57 seconds	"	1 Solar year.	

Seconds

60 =	1 Minute.
3600 =	60 = 1 Hour.
86400 =	1440 = 24 = 1 Day.
604800 =	10080 = 168 = 7 = 1 Week.
2419200 =	40320 = 672 = 28 = 4 = 1 Month.
31557600 =	525960 = 8766 = 365½ = 52 wks. 1d. 6h. = 1 Jln. Yr.
31556937 =	525948 = 8765 = 365d. 5h. 48m. 57s. = 1 Solar Yr.

The year is also divided into twelve months.

To know how many days are in each month, observe :

Thirty days hath September,

April, June and November,

February has twenty-eight alone,

And all the rest have thirty-one.

(Except in leap-year, at which time,

February's days are twenty-nine.)

Every fourth year is called Leap-year, and consists of 366 days. To ascertain if a given year is leap-year, divide it by 4, and if there be no remainder, it is leap-year; if there be a remainder, the number over shows how many years have elapsed since the last leap-year.

MISCELLANEOUS TABLES.

INTEREST TABLES.

FOR CURRENT GOVERNMENT SECURITIES.

Rules prescribed by Government for the calculation of anticipation Interest on New Loans and Interest generally.

1. Interest to be paid by the month; each month to be taken as one-twelfth of a year, and to consist of thirty days or parts.
2. In cases where it may be necessary to calculate interest on the fractional part of a month of thirty-one days, the extra day is to be struck out.
3. Application of above Rule to a Loan on which the half-yearly interest falls due on the 31st December and 30th June of each year.
4. A person subscribing on the 27th October would be entitled to anticipation interest from 27th October to 30th December, for two months and three days, thus :—
 - (a.) From 27th October to 26th December, for two months or two-twelfths of a year.
 - (b.) From 27th to 30th December, three days or three-thirtieths of one-twelfth.
5. A person subscribing to the Loan on the 29th December would be entitled to only one day's Anticipation Interest, on the 30th he would not be entitled to any.
6. A person subscribing to the three-and-a-half per cent. loan on any day in that month previous to the 28th February 1854, is entitled to interest from the day of subscription to the 27th February, both days inclusive, and for each day he will receive one-thirtieth of one-twelfth, thus:—if he subscribes on the 3rd February, he will receive twenty-five-thirtieths, and if on the 1st February, twenty-seven-thirtieths of a month's interest.

- Appraisalment of crops for the purpose of ascertaining the amount to be given to a landlord as rent.
5. Assignment of copyright by entry made under Act No. XX. of 1847, section 5.
- Award under Bombay Act VI. of 1873, section 81, or Bombay Act III. of 1874, section 18.
- Bill of lading, when the goods therein described are received at a place within the limits of any port as defined under the Indian Ports Act 1875, and are to be delivered at another place within the limits of the same port.
- Bond when executed by—
 - (a) the sureties of middlemen (lambardars) or (khattadars) taking advances for the cultivation of the poppy for Government ;
 - (b) headmen nominated under rules framed in accordance with Bengal Act III. of 1876, section 99, for the due performance of their duties under that Act ;

- (e) any person for the purpose of guaranteeing that the local income derived from private subscriptions to a charitable dispensary or hospital or any other object of public utility shall not be less than a specified sum per annum.
9. Copy of any paper which a public officer is expressly required by law to make or furnish or record in any public office or for any public purpose.
10. Copy of registration of emigrants furnished under section 27 or section 29 of the Indian Emigration Act 1871.
11. Entry—
- (a) of an advocate, vakil or attorney on the roll of any High Court, when he has previously been enrolled in a High Court established by Royal Charter ;
- (b) on the roll of any High Court, as an attorney, of an articulated clerk bound as such before this Act comes into force.
12. Instruments—
- (a) executed by persons taking advances under the Land Improvement Act 1871, or by their sureties as security for the repayment of such advances ;
- (b) executed by officers of Government or their sureties to secure the due execution of an office or the due accounting for money received by virtue thereof ;
- (c) of apprenticeship executed by a Magistrate under Act XIX of 1850, or by which a person is apprenticed by or at the charge of any public charity.
13. Leases and Counterparts—
- (a) Leases of fisheries granted under the Burmah Fisheries' Act 1875 ;
- (b) Lease, executed in the case of a cultivator without the payment of delivery of any fine or premium, when a definite term is expressed and such term does not exceed one year, or when the annual rent reserved does not exceed one hundred rupees.
- (c) Counterpart of any lease granted to a cultivator.
14. Letter—
- (a) of cover or engagement to issue a policy of insurance ;
- Provided that, unless such letter or engagement bear the stamp prescribed by this Act for such policy, nothing shall be claimable thereunder, nor shall it be available for any purpose except to compel the delivery of the policy therein mentioned ;
- (b) of hypothecation accompanying a bill of exchange.
15. Receipt—
- (a) endorsed on or contained in any instrument duly stamped, or exempted, under this schedule, No. 18, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal-money, interest or annuity or other periodical payment thereby secured ;
- (b) for payment of money without consideration ;
- (c) for any payment of rent by a cultivator on account of land assessed to Government revenue, or (in the Presidencies of Fort St. George and Bombay) of *inām* lands ;
- (d) for pay by non-commissioned officers or soldiers of Her Majesty's army, or Her Majesty's Indian Army, when serving in such capacity ;
- (e) for pensions or allowances by persons receiving such pensions or allowances in respect of their service as such non-commissioned officers or soldiers, and not serving the Government in any other capacity ;
- (f) given by holders of family-certificate in cases where the persons from whose pay or allowances the sum comprised in the receipt has been assigned is a non-commissioned officer or soldier of either of the said Armies, and serving in such capacity ;
- (g) given by a headman or lambardār for land-revenue or taxes collected by him ;
- (h) given for money or securities for money deposited in the hands of any banker, to be accounted for ;
- Provided the same be not expressed to be received of, or by the hands of, any other than the person to whom the same is to be accounted for ;
- Provided also, that this exemption shall not extend to receipt or acknowledgment for any sum paid or deposited for or upon a letter of allotment of a share, or in respect of a call upon any scrip or share of or in any Company or Association or proposed or intended Company or Association.
16. Surrender of lease when such lease is exempted from duty.
17. Transfers by endorsement—
- (a) of a bill of exchange, cheque, or promissory note ;

SCHEDULE II.—(Concluded.)

- (b) of a bill of Lading ;
- (c) of a policy of insurance ;
- (d) of mortgages of rates and taxes authorized by any Act for the time being in force in British India ;
- (e) of securities of the Government of India ;
- (f) of a warrant of goods (No. 61 of schedule I.)

General Exemption.

18. Any instrument executed by, or on behalf of, or in favor of Government in case where, but for this exemption, the Government would be liable to pay the duty chargeable in respect of such instrument.

REGISTRATION FEES

UNDER THE INDIAN REGISTRATION ACT III, 1877.

Published in the Calcutta Gazette of 16th January 1878, 2nd October 1878, and 26th November 1884.

I—ORDINARY FEES.

(A)—The fees of the registration of the documents described below shall be regulated on an *ad valorem* scale, and calculated according to the value of the right, title, and interest affected in the manner following, that is to say :—

Where the value does not exceed Rs. 100	0 12
Where the value exceeds Rs. 100, but does not exceed Rs. 250	1 0 0
Where the value exceeds Rs. 250, but does not exceed Rs. 500	1 8 0
Where the value exceeds Rs. 500, but does not exceed Rs. 1,000	2 0 0
For every additional Rs. 1,000 or part thereof	1 0 0

Description of Documents.

Conveyances and bills of sale, deeds of gift or dower, settlements, deeds of partition, leases, deeds of mortgage or instruments of further charge, bonds, assignments of any interest secured by a bond or mortgage deed, policies of insurance, bills of exchange and promissory notes, and generally all other documents of the nature of those hereinbefore mentioned: provided—

- (i) that in case where any consideration is expressed, the consideration, and in case of leases and other periodical payments, the amount payable for one year in addition to any fine or premium, and in case of bonds and mortgages, the amount to be secured, shall be taken to be the value of the right, title, or interest affected ;
- (ii) that if no consideration, rent, or other value be expressed in the document the amount payable shall be in every case Rs. 10.
- (iii) that if a lease given to any ryot and the kabuliyat or counterpart of such lease executed by such ryot be brought for registration at the same time, the fees chargeable in respect of the two documents shall not be greater than the fee which would have been charged upon the lease alone.

(B)—The fee for the registration of a separate instrument acknowledging the receipt or payment of any sum of money, whether consideration on account of any deed of sale or mortgage, or rent on account of any lease, or other value expressed in any document, shall be calculated according to the amount received on the above scale: provided that, if any instrument referring to the same transaction have already been registered, the fee shall not exceed Rs. 2.

(C)—(a) The fee to be paid on the deposit of any sealed cover containing a will shall be Rs. 2.

(b) On the opening of such cover, Rs. 2, besides the expense of copying the contents according to the scale laid down in this table for the granting of certified copies.

(c) On the registration of any will or authority to adopt presented open, Rs. 4.

(d) For withdrawal of a sealed cover containing a will, Rs. 2.

(D)—The fee for the registration of a certified copy of a decree or order of court shall be Rs. 1.

(E)—The fee for the registration of an Agreement for personal service shall be 8 annas only.

(F)—The fee for the registration of any document of a description not mentioned above shall be Rs. 1, if the document does not exceed one page of the register book, and Rs. 2 if in excess of that limit.

(G)—For every copy and memorandum of a document to be forwarded to another office under sections 64—57, there shall be paid an extra fee equivalent to that paid under Article A, B, D, or F: provided that the fee for a copy shall not exceed Rs. 10 and that the fee for a memorandum shall not exceed Rs. 1.

(H)—The fee to be paid for search shall be—

Rs. A. P.

For the first year in the books of which search is

made 1 0 0

For every other year 0 4 0

Provided that no fee under this Article shall exceed the sum of Rs. 5.

NOTE.—Every application for the grant of a certified copy, except at the time of the registration of a document, shall be considered as an application for search.

(I)—For making or granting copies of reasons, entries or documents, before, on or after registration, a fee shall be charged at the rate of 1 anna for every hundred words in the native character, and of 2 annas for every hundred words in the English character.

II.—EXTRA OR ADDITIONAL FEES.

(K)—For registration by any Registrar (other than the Registrar of Calcutta) of any document under section 30 (a), an extra fee equal to the ordinary fee, or Rs. 5 whichever is less.

NOTE.—The additional fee shall not be payable when an instrument is registered by a Registrar acting as Sub-Registrar under Rule 6, or in consequence of the Sub-Registrar by whom it should be registered under section 29 being a party interested in the transaction to which such instrument relates.

(L)—For registration by the Registrar of Calcutta, when no portion of the property is situated within his district, Rs. 10.

(M)—For attendance under section 31, at a private residence for registration or acceptance of any one document, will, or authority, Rs. 10.

(N) Before the issue of a commission, or before the Registering Officer or Judge personally proceeds to any dwelling-house or jail to obtain evidence as to the voluntary nature of the execution of a power-of-attorney under section 33, or for the examination of any person under section 38, a fee shall be paid as follows on account of every person exempted from appearance:—

(1) If the person be exempted on account of bodily infirmity, such as to make it impossible, without risk of life, to attend the office, or because confined in jail Rs. 5.

(2) If the person be exempted on account of sickness of any other kind, or as a person exempt by law from personal appearance in court, Rs. 10.

And in addition, travelling allowance must be paid to the Registering Officer or Judge, or any person to whom the commission is issued, at the rate of four annas a mile for all distances exceeding one mile from the registration office;

Provided that, where two or more persons who execute the same document reside together; only one commission fee shall be charged so far as those persons are concerned.

(O)—For admission of a document to registration under section 24 or section 34 after the expiration of the time prescribed:—

If presented within seven days of the time prescribed	Twice the fee payable on account of such document.
If presented within a month of the time prescribed	Four times the fee.
If presented within four months of the time prescribed	Ten times the fee.

Explanation.—This fine is inclusive of the ordinary fee.

NOTE.—When two or more copies of a document executed by the same parties are presented for registration at the same time, an ordinary fee shall be payable for each copy; but any extra or additional fee which is payable under clauses (K), (L), (M), (N), and (O) shall be calculated as for one document only, no matter how many copies of that document may be registered.

(P)—For authenticating or attesting the execution of a power-of-attorney as follows:—

If it is a special power	Rs. 1
Ditto general power	Rs. 2

(Q)—The fees for serving summons under the provisions of section 37 shall be regulated according to the scale in force in the revenue courts in the same district.

(R)—Besides the fees payable under Articles (A), (B), (C) (c), and (D) of this table there shall be paid, for the registration of every document of such length as to occupy more than two pages of the register, an extra copying fee at the rate of four annas for every page or part thereof in excess of the first two pages. Assuming three hundred words to the page, this fee may be calculated by counting the number of words in the document: or if no such calculation is made by the parties, the Registering Officer will estimate the number of pages likely to be thus charged for, but the fee shall in every case be payable on presentation; and in case of miscalculation, the document shall not be returned until any deficiency in the fee levied is made good.

Example.—A conveyance is presented for registration containing 1,350 words. If the parties certify to this fact, the Registering Officer would at once proceed to charge a fee for three pages (1,350—600—750), *i. e.* 12 annas. If the number of words is not known, the Registering Officer would perhaps charge for two extra pages, or eight annas only, and the deficiency of four annas would have to be made good before the document could be returned.

(S)—When a document remains unclaimed in a registration office for more than one month after completion of registration, a fee of four annas shall be charged for every month or part of a month beyond the first month after completion of registration.

(T)—When a document remains unclaimed for more than one month after refusal of registration, a fee of four annas shall be charged for every month or part of a month beyond the first month after refusal of registration. The amount of the fee shall not however, exceed Rs. 5 (five) in any case.

ADMINISTRATION OF PROPERTY UNDER ACT II. OF 1874.

THE ADMINISTRATION OF THE PROPERTY IN INDIA OF DECEASED PERSONS.

THE CUSTODY AND PRESERVATION OF THE PROPERTY IN INDIA OF DECEASED PERSONS NOT HINDUS, MAHAMMADANS, OR BUDDHISTS.

When any person, not a Hindu, Muhammadan, or Buddhist, or exempted by the Governor-General in Council from the operation of the Indian Succession Act, dies leaving "assets" in India, it is the duty of the "Judge of the District" (Act II of 1874, §64) within which the assets are locally situated at the time of the death, to take charge of them, and this is always the case, whether the deceased has left a Will or died intestate.

The District Judge is to report the case to the Administrator-General of the Presidency (Act II of 1874, § 64). "Assets" include immoveable as well as moveable property (*ib.* § 3).

In case of death, therefore, persons interested in the preservation of the property of the deceased in India should at once communicate with the Judge of the district in which any of it is situated, and with the Administrator-General of the Presidency.

They should state the full name and occupation of the deceased—his nationality—the date and place of his death—the nature and amount of any property he may have left in the district in question or in any other part of India: whether there is or is not a Will: if so, where it is; the names and addresses of the witnesses and executors: if there is no Will, they should give the names and addresses of the next-of-kin of the deceased, &c., so far as they are themselves informed on these matters.

It is also very important with reference to the stamp duty, that the person who is to represent the estate should know, as soon as possible, the value of the assets, moveable and immoveable, as accurately as it can be ascertained; for until he has this knowledge he cannot apply for probate or letters of administration. The Court Fees Act imposes a stamp duty of 2 per cent upon the assets if they exceed 1,000 rupees, and there is no provision in the Act of any adjustment of the stamp duty after the grant has been made. It must be paid in full at once, and no refund can be made under the Act if the

assets are over-estimated. The Government will, however, under a recent order, allow application to be made for a refund in respect of money paid in satisfaction of the debts of the deceased. If the assets do not exceed 1,000 rupees, no stamp is required.

THE REALIZATION OF PROPERTY OF SMALL VALUE BY A CERTIFICATE FROM THE ADMINISTRATOR-GENERAL, BY THE POLICE, AND OF SMALL SUMS IN THE GOVERNMENT SAVINGS' BANK.

If the whole of the assets do not exceed in value Rs. 1,000, any person entitled as executor, as widow, or to administer in any capacity save as a creditor, may apply at once, in writing to the Administrator-General of the Presidency for a certificate, and on satisfactory proof of the representative right, a certificate can be granted entitling the claimant to receive the sums or securities for money therein severally mentioned (Act II of 1874, § 36). or a creditor may obtain a certificate after the lapse of three months, or the Administrator-General may act without probate or letters of administration (§ 37.)

But no certificate can be granted when probate or letters of administration have been obtained, or in respect of any sum of money deposited in a Government Savings' Bank (§ 37.)

Where persons die intestate in the Presidency Towns, leaving property under 200 rupees in value, the police authorities are empowered to take charge of it and to deliver it over to any person showing a right to it, without letters of administration. (Act XIII of 1866, § 113, and the Bengal Act IV of 1866, § 100, Madras Act VIII of 1867.)

When a person dies leaving in a Government Savings' Bank a deposit of a sum of money not exceeding 1,000 rupees, and if probate of his Will, or letters of administration to his estate, or a certificate under Act XXVII of 1860 (this certificate is different from that granted by an Administrator-General, and is granted by a Judge, and is now only given in native cases) is not produced to the Secretary of the Bank within three months of the death of the depositor, the Secretary may pay the money to any person appearing to him to be entitled to receive it or to administer to the estate of the deceased, and he may take such security from such person as he thinks necessary, and he may also, in order to ascertain the right of the person claiming the money, take evidence on oath or affirmation.

An executor or administrator of a deceased depositor is entitled afterwards to receive any sum in the hands of the person so receiving the deposit from the Secretary of the Bank, deducting such part of it as is lawfully paid away in the due course of administration and a creditor of the deceased may recover his debt against a person so receiving the deposit, should any part remain in his hands unadministered, in the same manner as if the receiver had obtained letters of administration.

If the amount of deposit in a Government Savings' Bank belonging to the estate of a deceased person does not exceed 1,000 rupees, such amount shall be excluded in computing the free chargeable under the Court Fees Act of 1870 on the probate or letters of administration or certificate in respect of his other property. But a certificate of the deposit amount signed by the Secretary of the Bank will, in this case, have to be produced before the Court (Act. V. of 1873 *The Government Savings' Bank Act.*)

The enactment does not apply to deposits in Savings' Banks belonging to estates of European officers, soldiers, or deserters.

LETTERS OF ADMINISTRATION IN CASE OF INTESTACY.

When the deceased has died intestate, those who are connected with him either by marriage or consanguinity, are entitled to obtain letters of administration of his estate and effects in the following order (Act. X. of 1865 § 200.)

If the deceased has left a widow, administration shall be granted to the widow unless the Court shall see cause to exclude her.

If there be no widow, or if the Court see cause to exclude her, it shall commit the administration to the person or persons who would be beneficially entitled to the estate according to the rules for the distribution of an intestate's estate: provided that when the mother of the deceased be one of the class of persons so entitled, she shall be solely entitled to administration (§ 203).

Those who stand in equal degree of kindred to the deceased are equally entitled to administration (§ 204).

The husband surviving his wife has the same right with respect to her estate (§ 205.)

When there is no person connected with the deceased by marriage or consanguinity who is entitled to letters of administration and willing to act they may be granted to a creditor (§ 206) but an Administrator-General is entitled to administer in preference to any one but an executor, universal legatee or absolute next-of-kin (Act II of 1864. § 15).

The application for letters of administration should be made by petition properly stamped, and should state the time and place of the death of the deceased; the family or other relatives of the deceased, and their respective residences; the right in which the petitioner claims; that the deceased left some property within the jurisdiction of the District Judge to whom the application is made; and the amount of the assets which are likely to come to the petitioner's hands (§ 246.) The petition should be subscribed by the petitioner and verified thus:—"I (A. B.) the petitioner in the above petition declare that what is stated therein is true to the best of my knowledge and belief" (Act X. of 1865, § 247.)

Letters of administration cannot be granted until after the expiration of fourteen clear days from the day of the intestate's death (§ 258.) They entitle the administrator to all rights belonging to the intestate as effectually as if the administration had been granted at the moment after his death (§ 181,) but they do not render valid any intermediate acts of the administrator tending to the diminution or damage of the intestate's estate (§ 192.)

Every person, except an Administrator-General to whom any grant of administration is committed, is called upon to enter into a bond, with two sureties engaging for the due collection and administration of the assets (§ 256.) This bond is generally in double the amount of the assets likely to come to his hand, and is stamped with a stamp now fixed at 8 rupees (Act VII of 1870, schedule 2, clause 16.)

SUCCESSION TO MOVEABLE PROPERTY OF DECEASED PERSONS IS REGULATED BY THE LAW OF THEIR PLACE OF DOMICILE.

Should any person die possessed of property in British India, succession to his immoveable property is regulated by the law of British India, wherever he may have had his domicile at the time of his death (Act X of 1865, § 5.) It follows, therefore, that the law of British India must be complied with—first, in determining the validity of a Will should there be one; second, in the construction of the Will; and third, in case of intestacy, in determining the persons among whom the property is to be divided.

But succession to the moveable property of a deceased person is regulated by the law of the country in which he had his domicile at the time of his death (*ibid.*) Hence it is necessary in such cases to determine in the first instance what was the domicile of the deceased person.

Under the Indian Succession Act, § 6 a person can only have one domicile for the purpose of succession to his moveable property. The domicile of origin of every person of legitimate birth is in the country in which, at the time of his birth, his father was domiciled; or if he was a posthumous child, in the country in which his father was domiciled; at the time of his father's death (§ 7); and the domicile of origin of an illegitimate child is in the country in which, at the time of his birth, his mother was domiciled (§ 8.) The domicile of origin prevails until a new domicile has been acquired (§ 9.)

A man acquires a new domicile by taking up his fixed habitation in a country which is not that of his domicile of origin (§ 10.) The points to be determined are therefore—first whether he actually has taken up his residence in the country; and second, whether he intends to make it his "fixed" residence for the future. (Explain and Illustrate *ibid.*)

A person may acquire a domicile in British India either by taking up his fixed habitation in the country as above, or by making and depositing in some office in British India (to be fixed by the local Government) a declaration in writing under his hand, of his desire to acquire such domicile, provided that he shall have been resident in British India for one year immediately preceding the time of his making such declaration (§ 11.) A new domicile continues till the former domicile is resumed, or another has been acquired (§ 13.)

By marriage a woman acquires the domicile of her husband if she had not the same domicile before (§ 15); and the wife's domicile during the marriage follows the domicile of her husband, unless they be separated by the sentence of a competent court, or if the husband is undergoing a sentence of transportation (§ 16.)

Succession to moveable property of a person who dies in British India leaving moveable property therein in the absence of proof of any domicile elsewhere, is regulated by the law of British India (§ 19.)

It would be competent to a foreigner dying in, and not domiciled in British India by a Will properly executed to appoint the Administrator-General or any other person his executor; and such an appointment would be valid as against the Consul of his nation (§ 179), the executor would be bound to distribute the estate according to the law of

the country of the domicile of the deceased as to his moveable property, whilst his immoveable property, if any, would be subject to the law in force in British India (§ 5.)

But should a foreigner having acquired a domicile in British India die either intestate or leaving a Will, the succession to his estate would be regulated by the law in force in British India relating to intestate succession or to Wills as the case might be. That law would apply to all his property whether moveable or immoveable in British India; it would all pass to the executor or administrator as the case might be (§ 179); but it would not necessarily pass to the Administrator-General unless he should administer. This he would do only in case he was appointed executor, or in the absence or at the request of the next-of-kin or executor, or of an universal legatee (Act II. of 1874 § 15.)

THE ADMINISTRATOR-GENERAL, HIS DUTIES AND POWERS.

There are three Administrators-General in British India, one for each of the presidencies of Bengal, Madras and Bombay (Act II, of 1874, § 4.) Their offices are at Calcutta, Madras and Bombay respectively.

The presidency of Bengal includes, for this purpose (§ 3), the territories which are or shall for the time being be respectively under the Governments of the Lieutenant-Governor of Bengal, the North-Western Provinces, and the Punjab, and under the Administrations of the Chief Commissioners of Oudh, the Central Provinces, British Burman, Ajmere and Mairwar, Assam, and the Andaman and Nicobar Islands, and such of the dominions of the princes and states in India in alliance with Her Majesty as the Governor-General in Council may, by notification in the *Gazette of India*, from time to time, direct.

The Presidency of Madras includes the territories which are or shall for the time being be under the Government of the Governor of Fort St. George in Council, Coorg, Mysore, and such of the dominions aforesaid as the Governor-General in Council may by notification in the *Gazette of India* from time to time direct. (*ib.*)

The Presidency of Bombay means the territories which are or shall for the time being be under the Government of the Governor of Bombay in Council, the Hyderabad Assigned Districts, and such of the dominions aforesaid as the Governor-General in Council may, by notification in the *Gazette of India*, from time to time direct. (*ib.*)

The duties of the Administrators-General, and their powers, will be found set out at length in Act II. of 1874 of the Governor-General of India in Council. But it may here be shortly stated, that under Section 15 of that enactment, the Administrator-General is entitled to letters of administration, unless granted to an universal legatee or to the nearest-of-kin, that is, the nearest-of-kin absolutely, not merely, the nearest-of-kin in India,—in the goods of *Smallwood*, per Norman J., July 20th 1868, where a brother, the nearest-of-kin in India, was held not to be entitled in priority to the Administrator-General, there being a father and mother alive in England.

By Section 16 he is required, within a reasonable time after he shall have had notice of the death, and that the deceased has left assets within the Presidency (as defined above) to take steps to apply to the High Court for letters of administration, and this, whether the deceased has left a Will or not: provided that the assets are of greater value than Rs. 1,000 and that no person shall, within a month after the death, have applied in such Presidency for probate of a Will, or for any letters of administration of the estate; that is to say no person to whom the Court would have given letters of administration which would be effectual as regards the assets for which administration is sought.

But there is nothing to prevent the Administrator-General from applying to the Court for letters of administration in any case within the period of one month from the death of the deceased (Act II of 1874. § 28).

If the assets do not exceed Rs. 1,000 in value in the whole, the Administrator-General is not bound to act; but he may either grant a certificate to some persons entitled, or take charge of the estate himself without letters of administration, under Act II of 1874 §§ 36, 37.

Letters of administration or probate granted to an Administrator-General in his official capacity, authorize the person filling the office for the time being to act as administrator or executor of the estate to which such letters of administration or probate

shall relate (§§ 29,30) and all estate, &c., vested in the Administrator-General, all his books, &c., become vested in and transferred to his successor in office (§ 35), thus the inconvenience, delay and expense attending the appointment of a fresh administrator on the death of the original administrator or executor are avoided when the estate is placed in the hands of the Administrator-General.

Any private executor or administrator may, with the consent of the Administrator-General of the presidency in which property comprised in the probate or letters of administration is situate, by an instrument in writing under his hand bearing a stamp of ten rupees, and notified in the local Gazette, transfer the estates, &c., vested in him by virtue of such probate or letters to the Administrator-General by his name of office; and thereupon the transferer becomes exempt from all future liability. His future rights and responsibilities are transferred to the Administrator-General. But the transferer remains liable for all his acts and omissions in respect of the property prior to the transfer (§ 31).

As soon as the Administrator-General takes charge of the estate, the fact is advertised in the Gazette and in the public papers, and creditors are called upon to prove their claims. They should state the amounts and other particulars, and support their claims by such evidence as (under the circumstances of the case) the Administrator-General is reasonably entitled to require. If a claimant fail to do this within one month of the date of the institution of any suit he may bring against the Administrator-General in respect of his claim, he will be liable, in any event, to pay the costs of the suit, and he will not be entitled to have his decree enforced. If he obtains judgment, he will be entitled only to payment out of the assets rateably with the other creditors (§ 35).

The Administrator-General, like every other executor or administrator, is bound to keep the assets for a reasonable time, to answer the claims of creditors. This time is fixed by the law generally at one year (*Wms. Exors*, 6th ed. p. 1286); but where the case permits of it, the account can be closed earlier. Like any other executor or administrator he is bound to pay all creditors rateably or preferentially according to the law governing the distribution; after the expiration of a year from the date of his administration no claim can be made upon him in respect of any assets paid or delivered by him to any legatee, or to any person entitled in distribution unless he had notice of the claim (§ 28).

Under the Indian Succession Act, the following payments only may be made in performance, *viz.* :—Funeral expenses, death-bed charges, fees for medical attendance, board and lodging for one month prior to death.

Expenses of obtaining probate or letters of administration including the cost of any judicial proceedings necessary for administering the estate, rank next, and then wages or services rendered to the deceased within three months next preceding his death by any laborer, artisan or domestic servant; all other debts are on an equal footing (Act X of 1865, §§ 279, 281, 281 and 282.) These rules apply in all cases where the assets consist of immovable property in British India; where they consist of moveable property, the law of the country in which the deceased was domiciled prevails (§ 283); but no creditor who obtains a part payment in preference to others by reason of this rule, can share in the proceeds of any immovable property of the deceased without bringing such payment into account (§ 286).

The Administrator-General is bound to keep accounts as prescribed by the Act. These accounts are audited by the Government and his books are open at all times to the Auditor appointed by Government and to allow persons entitled so to do to inspect them on payment of a reasonable fee fixed by Government (Act II of 1874. § 43): he is bound to furnish half-yearly schedules of the estates under his charge in form prescribed by the Act; these schedules are published in the Gazette of the Presidency. Three copies are sent to the Government for transmission to the Secretary of State for India for the information of persons who are interested in the matter.

The Administrator-General of Bengal is entitled to a commission of 3 per cent and the Administrator-General of Bombay or Madras to a commission of 5 per cent. (§ 52), except in the case of the estates of officers and soldiers, when the commission is uniformly 3 per cent, on the assets after payment of the preferential charges (§§ 21

and 53.) This Commission is to cover the expenses of his establishment; but he is entitled to reimburse himself in addition for any payment made by him in respect of any estate in his charge, which a private administrator of such estate might have lawfully made (§ 54). The commission allowed by the Act is the maximum commission. It may be reduced by arrangement in special cases. No person other than an Administrator-General acting officially shall receive or retain any commission or agency charges for anything done under any probate or letters of administration (§ 56).

All correspondence to the Administrator-General should be addressed to him by his name of Office.

NATIVE WILLS.

An important change in the law regarding the Wills of Natives was effected by Act XXI of 1870, by which Act certain sections of the Indian Succession Act are applied to all Wills of Hindus, Jains, Sikhs or Buddhists made after the 1st of September, 1870, within the territories subject to the Lieutenant-Governor of Bengal or the local limits of the High Courts of Judicature at Madras and Bombay; and to all such Wills and codicils made outside those territories and limits, so far as relates to immoveable property situate within those territories and limits.

The section that have been so applied are enumerated. They relate to:—

1. The execution and revocation of Wills and codicils.

This subject which was very obscure is now no longer left in uncertainty.

The rules are prescribed by the Act.

2. The construction of Wills.

The simple rules contained in Sections 82, 83, 85, and in Sections 88 to 103 (both inclusive) of the Indian Succession Act, are applied to those Wills of Natives, as are also the rules as to the Vesting of Legacies—Onerous and Contingent Bequests. Conditional Bequests and Bequests with directions as to their application or enjoyment—Bequests in an executor—Specific and Demonstrative Legacies—The Ademption of Legacies—The payment of Liabilities in respect of the subject of a Bequest—Bequests of things described in general terms—of the Interest or produce of Land—of Annuities—Legacies to Creditors and Portioners—and Election.

3. The proceedings and practice to be observed in obtaining Probate of Wills.

4. The rights and duties of Executors.

In all these matters the native Will is put on the same footing with the Will of the European—any executor may be appointed—and if it is desired to obtain the security of the Government Audit of the executor's accounts, the estate may be made over to the Administrator-General either by the original Will or by transfer (under Act II. of 1874, § 31), as is done in the case of Europeans.

OFFICIAL TRUSTEE'S OFFICE.

This office was created by Act XVII of 1864, in consequence of the difficulty experienced in India in obtaining private Trustees, and the trouble and expense of appointing new Trustees, on the death or departure from India of those already created.

The Official Trustee is paid by commission, and may, at his own option, undertake all kinds of Trusts, except Religious Trusts but must always be appointed sole Trustee and cannot act jointly with any one else.

There are four classes of cases under the Act in which the services of the Official Trustee will be useful.

(1.) *New Trusts.*—When a person is desirous of making a settlement of property on marriage, or at any other time, for the benefit of his wife or family, or of any other person, or for a charitable purpose.

(2.) *Assignment for benefit of creditors.*—When a person in embarrassed circumstances is desirous of assigning all his property to a Trustee for the benefit of his creditors.

(3.) *Swiping Trusts*.—When the Trustees are dead, or out of the jurisdiction of the High Court, or unwilling to continue acting.

(4.) *Gifts or Legacies for Infants or Lunatics*.—When the executor or other person holding such property is anxious to be relieved of the charge.

MODE OF OBTAINING APPOINTMENT OF OFFICIAL TRUSTEE.

In new Trusts he is appointed by the Deed creating the Trust. In other cases a petition to the High Court is necessary, the costs of which are usually ordered to be paid out of the Trust Funds. By means of a like petition the Funds can always be retransferred to a private Trustee, unless otherwise provided by the Deed or Will creating the Trust.

All property and interests vested in an Official Trustee will, upon his death, resignation, or removal from office, vest in his successor in office, without any fresh appointment or charge whatsoever.

It is necessary to employ a Solicitor in preparing Trust Deeds, and in applying to the Court for the appointment of the Official Trustee. In most cases, also, it will expedite business if communications respecting Trusts be made through a Solicitor.

The above relates to the appointment of the Official Trustee under the summary procedure provided by the Official Trustee's act, but the Official Trustee can be, and often is, appointed Trustee under a decree of Court with special powers and on special terms.

COMMISSION.

In *new Trusts*, the rates are agreed upon between the person creating the Trust and the Official Trustee, and will vary according to the nature of the duties to be performed.

In *existing Trusts and on property received for infants and lunatics*, the rates are fixed by the Act as follows:—

- $\frac{1}{4}$ per cent. on capital monies received.
- $\frac{1}{4}$ per cent. on interest and dividends realised.
- $2\frac{1}{2}$ per cent. on rents collected.

Also $\frac{1}{2}$ per cent on the investment, when necessary, of any funds received in each.

INVESTMENTS.

Capital monies and surplus income are invested in Government Securities, except it be otherwise provided by the Deed or Will creating the Trusts.

CUSTODY OF SECURITIES.

All Securities are kept in the bank of Bengal, and cannot be removed from thence except under an order signed by a Judge of the High Court, specifying the purpose of such removal.

REMITTANCES TO EUROPE.

Remittances to Europe are made as directed by the parties to whom such remittances are to be payable, and in the absence of any directions by bills of certain Banks approved by the Comptroller General of Accounts to an Official Agent at the India Office, London, for payment to parties entitled.

AUDIT.

The accounts are audited yearly by Auditors from the Office of the Comptroller General of Accounts approved by the Chief Justice.

WILLS.

Persons wishing to make a disposition of property by Will, and to appoint an Official Executor and Trustee should appoint the *Administrator-General*, as executor to administer the testator's estate, with a direction that after administering the same as executor, he shall hand over the residue to the Official Trustee, upon such trusts as the testator may declare; or private persons may be appointed executors with the like directions as to the handing over of the residuary estate to the Official Trustee.

N. B.—It is important to note that the consent in writing of the Official Trustee to his appointment as Trustee under any will must be obtained at the time of making such will.

NEW WARRANT OF PRECEDENCE IN INDIA.

THE following is the table to be observed with respect to the rank and precedence of the persons therein named holding appointments in the East Indies :—

1. Viceroy and Governor-General of India.
2. Governors of Madras and Bombay.

30. Financial Commissioner, Punjab.
31. Judicial Commissioners, and the Recorder of Rangoon.
32. Comptroller-General of Accounts in India.
33. Commissioners of Divisions within their own Divisions, and Residents, Political Agents, and Superintendents on pay of Rs. 2,000 per mensem or more (not being Collectors or Deputy Commissioners of British Districts) within their own charges.
34. Civil and Military Secretaries to Governments, Madras and Bombay; and Civil Secretaries to Governments of Bengal, North-Western Provinces, and Punjab.
35. Surveyor-General of India, and Directors-General of the Post Offices, and of Telegraphs.
36. Chief Engineers, 1st class.
37. Archdeacons of Calcutta, Madras, and Bombay.
38. Brigadier-General.

SECOND CLASS.

39. Civilians of 28 years' standing and Colonels.
40. Commissioners of Divisions and Commissioners of Police, Calcutta.
41. Private Secretary to the Viceroy.

42. Residents, Political Agents, and Superintendents, on pay of Rs. 2,000 per mensem or more (not being Collectors or Deputy Commissioners of British Districts).
43. Superintendent, Great Trigonometrical Survey.
44. Commissioners of Inland Customs.
45. Sanitary Commissioner with the Government of India.
46. Superintendent of the Geological Survey.
47. Inspector-General of Forests in India.
48. Standing Counsel to the Government of India.
49. Military Accountant-General.
50. Directors of Public Instruction under Local Governments.
51. Accountant-General for Local Governments.
52. Inspectors-General of Police under Local Governments.
53. Director of Revenue Settlements, and Superintendent of Revenue Survey, Madras; Survey and Settlement Commissioners, Bombay; Commissioner of Settlements, Punjab.
54. Remembrancers of Legal Affairs, and Government Advocates in the North-Western Provinces, the Punjab and British Burmah.
55. Consulting Engineers to the Government of India for Guaranteed Railways, Calcutta and Lahore, and Chief Engineers, second and third classes, under Local Governments.
56. District and Sessions Judge, Collectors and Magistrates of Districts, Deputy Commissioners of Districts, Deputy Superintendent of Port Blair, and the Chief Officer of each Presidency Municipality, within their respective charges.
57. Officers in the First Class Graded List of Civil Officers not reserved for Members of the Covenanted Civil Service: the Archdeacon of Lahore.

THIRD CLASS.

58. Civilians of 18 years' standing and Lieutenant-Colonels.
59. Political Agents and Superintendents on pay of Rs. 1,000 per mensem, but less than Rs. 2,000 (not being Collectors or Deputy Commissioners of British Districts) within their own charges.
60. Military Secretary to the Government, Punjab; and Civil Secretaries to Local Administrations.
61. Private Secretaries to Governors.
62. Directors of Public Instruction under Local Administrations.
63. Administrators-General, Calcutta, Madras, and Bombay.
64. Inspectors-General of Jails and of Registration; Sanitary Commissioners; Inspectors and Conservators of Forests under local Governments, and Post-masters General.
65. Accountants-General for Local Administrations.
66. Consulting Engineer to the Government of India for Guaranteed Railways, Lucknow, and Chief Superintending Engineers, when Secretaries to Local Administrations, or to Agents to the Governor-General.
67. Inspectors-General of Police under Local Administrations.
68. Senior Chaplains.
69. Superintendent of Marine, Bombay.
70. Master Attendants.
71. Sheriffs within their own charges.
72. Officers in the Second Class, Graded List of Civil Offices not reserved for Members of the Covenanted Civil Service.

FOURTH CLASS.

73. Civilians of 12 years' standing and Majors.
74. Political Agents and Superintendents on pay less than Rs. 1,000 per mensem, within their own charges.
75. Government Solicitors.
76. Inspectors-General of Jails and Registration, Sanitary Commissioners, and Conservators of Forests under Local Administrations.
77. Officers in the Third Class, Graded List of Civil Officers not reserved for Members of the Covenanted Civil Service.

Officers in the above table will take precedence in order of the numbers of the entries. Those included in one number will take precedence *inter se*, according to the date of entry into that number.

When an officer holds more than one position in the table, he will be entitled to the highest position accorded to him.

Officers who are temporarily officiating in any number in the table will rank in that number below permanent incumbents.

All officers not mentioned in the above table, whose rank is regulated by comparison with rank in the army, to have the same rank with reference to civil servants as is enjoyed by military officers of equal grades.

All other persons who may not be mentioned in this table to take rank according to general usage, which is to be explained and determined by the Governor-General in Council in case any question shall arise.

Nothing in the foregoing rules is to disturb the existing practice relating to precedence at Native Courts or on occasions of intercourse with natives, and the Governor-General in Council is to be empowered to make rules for such occasions in case any dispute shall arise.

All ladies to take place according to the rank herein assigned to their respective husbands, with the exception of wives of Peers, and of ladies having precedence in England independently of their husbands, and who are not in rank below the daughters of barons, such ladies to take place according to their several ranks with reference to such precedence in England immediately after the wives of Members of Council at the Presidencies in India.

Table of Salutes.

Return salutes to foreign men-of-war	Gun for gun, but only when such ships are saluting the national flag on arrival.
Return salutes to capitals of the navy and naval officers of inferior rank* ...	7	

Officers of the Navy and Army shall be saluted in India, according to their respective ranks, with the number of guns specified, and under the regulations laid down relating to salutes to Officers. Officers of Her Majesty's Indian Military forces shall be saluted according to their rank, in the same way as Officers of Her Majesty's army and navy.

Her Majesty's Officers are not to expect from foreign ships of war in India any departure from the established custom under which no salutes exceed 21 guns.

The fixed days for firing royal salutes as celebrations of anniversaries in Indian territories and waters are: the anniversaries of the birth (as fixed from year to year by authority,) the accession (20th June,) and the coronation (28th June) of the reigning Sovereign; the birth-day of the consort of the reigning sovereign; and the 1st of January of each year (being the anniversary of the proclamation of her Majesty's assumption of the title of Empress,) unless when it falls on a Sunday, when it will be fired on the following day.

FUNERAL HONORS.

Minute guns to be fired at the funerals of Crowned Heads and, at the funerals of functionaries who are entitled to salutes; the same number of minute guns only to be fired as they were entitled to as salutes when living.

Minute guns equal in number to the years of the deceased not to be fired on any occasion unless by special order of the Governor-General in Council.

ECCLESIASTICAL FEES.

I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs. 50, both in the Presidency Towns and in the interior. No fee will be charged on marriage by banns.

IV.—When registers are searched and copy of any entry given, a fee of one rupee shall be charged for the first year,† and four annas for every additional year over which the search may extend, as well as a fee of one rupee for the certificate. Soldiers, sailors and non-commissioned and petty officers are exempted from payment.

V.—A fee of eight annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial ground.

VI.—A further fee of one rupee per square foot shall be levied on the erection of a monument in a burial ground: provided, however, that for a simple headstone or flat slab of the size of an ordinary headstone an uniform fee of Rs. 15 only shall be charged. A fee of Rs. 15 shall be levied on a faculty for the erection of a monument in a Church.

VII.—The fees levied on the construction of masonry graves and the erection of monuments shall form a fund for keeping the Burial ground and Church compound in order, except in Calcutta and Bombay, where they will be credited to Government.

VIII.—British soldiers and non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial grounds to the memory of their comrades, wives, or children. No monument, however, either regimental or private, shall exceed six square feet, and no masonry grave shall occupy more ground than an area of eight feet by four. The simple stone slab or headstone should be generally adopted.

IX.—The Chaplain may at his discretion reduce or altogether remit, in cases of extreme poverty, the fee for searching registers and making copies, as well as the fees leviable on the construction of masonry graves, but not for the erection of monuments.

X.—The fees prescribed in these Rules should be paid to the Chaplain, or in the absence of the Chaplain, to the officer in charge of the burial ground, and shall be duly accounted for.

ST. PAUL'S CATHEDRAL.—*Chowringhee road.*

THE CATHOLIC CHURCH.

POPE LEO. XIII. established the Catholic Hierarchy in India by his Bull *Humane Salutis* of 1st September, 1886. The Hierarchy consists of the following eight Ecclesiastical Provinces : (1) Goa, (2) Agra, (3) Bombay, (4) Calcutta, (5) Madras, (6) Pondicherry, (7) Verapoly, (8) Ceylon; each province, besides the Metropolitan comprises Diocesan Sees. Goa is not only a Metropolitan and Primatial See, but the Archbishop of Goa has been raised to the dignity of Patriarch *ad honorem* of India, with the right of presiding at Provincial Councils, which are ordinarily to be held at Goa.

I. Metropolitan and Primatial See of Goa.

SUFFRAGANS.

(1) Damaun (2) Cochin (3) Meliapur.

CALCUTTA CHURCH MISSIONARY ASSOCIATION.

Established in 1824. Public Meeting held at the Old Church Prayer Room, the last Friday in each Quarter.

Patron.—The Lord Bishop of Calcutta.

President.—The Hon'ble Sir O. U. Aitchison, K C S I, C I E. L I D. D C L.

Committee.—Revs A Clifford, C S Harington, O H Bradburn, Jani Ali, W R Ball P Ireland Jones, M A ; W M Walton, J Hepburn, J. C. Parker and W. C. Morgan.

Secretary.—Rev J W Hall, 33, Amherst street.

Treasurer.—W H Ryland, 15, Kyd street.

The object of the Association is to aid the Missionaries of the *Church Missionary Society* in their work in Calcutta and the surrounding districts, by collecting funds for the employment of Native Agents for preaching the Gospel in the streets, chapels, boys' and girls' schools, and visiting the natives from house to house. They also minister to the sick in the Hospitals and the afflicted inmates of the Leper Asylum and Alms House. One day in each week some of them go to visit the villages and towns around Calcutta. Besides these there are three Readers whose duty it is to read and explain the Scriptures to the domestics of European families.

The Association depends for its support upon the voluntary contributions of the Christian public. Such contributions will be thankfully received by the Collectors, and also by any of the Members of the Committee.

CALCUTTA SEAMEN'S MISSION.

(Worked in connection with the Parish of Kidderpore.)

President.—The Lord Bishop of Calcutta.

Vice-President.—The Venerable the Archdeacon of Calcutta.

Committee.—E Longley, J Lambert, C J Paterson, Captain Reed, Sir Alex. Wilson L. Rose Capt. Campbell I M.

Honorary Secretary.—Rev A Saunders Dyer, M A, Kidderpore.

Honorary Treasurer.—H Pinkerton, Alipore.

Clergy.—Rev A Saunders Dyer, M A, *Chaplain*, *Assistant Chaplain*, (in charge of C S M). Vacant. B Lyness, *Superintendent of Institute*.

Assistant Chaplain. Vacant.

This Mission was established in 1852 ; at the beginning of 1886 it was amalgamated with the Seamen's Institute at Hastings and is now worked in connection with the Parish of Kidderpore, by the Chaplain, an Assistant Chaplain, and the Superintendent of the Institute. The Mission now consists of a Church (on shore) near Prinsep's Ghat and an Institute in Clyde Road, Hastings. This Institute is furnished with papers, billiard room, &c., and is open all day for the use of seamen. There is a Temperance Meeting on Monday and an entertainment on Thursday. Every thing is free both at the Church and Institute, and Seamen will be gladly welcomed.

OLD CHURCH BRANCH OF THE CALCUTTA CHURCH OF ENGLAND
TEMPERANCE SOCIETY.

The proceeds of the following Trust Funds are distributed by the *District Charitable Society*:—

LADY WILLIAM BENTINCK'S FUND.—1835.

Rupees 12,500 are invested in Government Securities for the relief of distressed persons without reference to religion, nationality, or caste. The Governor-General, the Chief Justice, and the Lord Bishop of Calcutta, for the time being, are trustees. The Bank of Bengal draws the interest half-yearly, and credits it to the Society's Fund. The annual interest is distributed as follows:—

The sum of Rs. 130-5-4 is sent annually to the Chaplain of Barr^o kpoore, and Rs. 34 monthly to the Old Church Committee.

Securities with the Bank of Bengal.

DWARKANATH TAGORE'S FUND—1839.

On 28th June 1839 Baboo Dwarkanath Tagore made a grant of a lakh of rupees for the benefit of the Society, "the interest to be applied and distributed by the Central Committee of the Society, for the relief of persons suffering from disease or poverty or either, and requiring charitable relief without distinction as to religion or place of birth according to their discretion."

The capital of this Trust is now one lakh and three thousand.

The Securities with the Trustees.

MISS ENGLISH'S CHARITY FOR THE RELIEF OF DESTITUTE PERSONS—1810

The amount of Rs. 71,700 is in the hands of the Official Trustee and the interest (less Rs. 200 a year paid to the Roman Catholic Archbishop) is paid to the District Charitable Society.

Securities with the Official Trustee of Bengal.

LOKENATH BOSE'S FUND FOR POOR INVALIDS—1854.

For poor persons without distinction of birth, caste, or creed, who are disabled and incapable of earning their livelihood.

The principal of this Fund is Rs. 3,000.

Securities with the Bank Bengal.

RINCE JAMIRUDIN'S CHARITY—1856.

Distributed to the poor monthly without distinction of caste or creed in allowances of not more than Rs. 5.

Rs. 2,61,400 are invested in Government securities. The Lord Bishop of Calcutta and the Archdeacon of Calcutta, for the time being, and Prince Ferrock Shah are Trustees

RADHAMADHUB BANERJEE'S CHARITY—1864.

A decree of the High Court ordered the sum of Rs. 9,000 to be set apart from the Estate of the late Radhamadhub Banerjee, and the interest thereon to be paid to the District Charitable Society for the relief of poor Hindoos.

Securities with the Accountant-General, High Court.

SREEMUTTY BAMASOONDARY DASSEE'S FUND—1860.

During 1887 one pensioner received Rs. 2 monthly from the interest on a Government Security for Rs. 500.

Security with the Bank of Bengal.

CHUMUTKAR KRISHNA GHOSE'S FUND—1866.

During 1887 one pensioner received Rs. 2 monthly from the interest on a Government Security for Rs. 600.

Security with the Bank of Bengal.

ESHAN CHUNDER BOSE'S FUND—1866.

One pensioner is selected and paid by the Native Committee the interest on a Government security for Rs. 600

Security with the Bank of Bengal.

MASSY BABA JOHN'S ESTATE—1866.

In custody of the Administrator-General of Bengal. After the payment of certain charges on the Estate for the relief of prisoners in the civil side of the Presidency Jail the Society receives any surplus revenue. This amounts to about Rs. 3,500 a year.

The income is unfettered, and is appropriated to meet the general expenses of the Society.

MRS. ROSE ANN GREENWAY'S BEQUEST—1868.

In custody of the Official Trustee of Bengal, consists of Rupees 6,000.

The yearly income derived from this Bequest is appropriated to meet the general expenses of the Society.

SASSOON FUND—1868.

Consists of Rs. 8,600 invested in the name of the District Charitable Society. The interest is credited to the general purposes of the Society.

Securities with the Bank of Bengal.

PROSONO COOMAR TAGORE'S FUND—1869.

Consists of Rs. 10,600, invested in Government Securities.

The income goes towards the general expenses of the Society.

Securities with the Bank of Bengal.

GOPAL LALL TAGORE'S FUND—1870.

Consists of Rs. 11,000, invested in Government securities. The yearly interest is paid through the Native Committee.

Securities with the Bank of Bengal.

CHEKE FUND—Founded 1870.

By a decree of the High Court under the will of Nicholas Cheke, deceased, a sum of Rs. 11,755-8-9 was paid to the District Charitable Society, and Rs. 11,500 were invested in Government Securities.

Securities in the custody of the Bank of Bengal. The safe custody receipt is with the Society.

FAMINE RELIEF FUND—1876.

On the 5th September 1876, the Secretary to the Central Relief Committee forwarded an extract from a letter he had written to the Bank of Bengal, directing the Bank to hold the sum of Rs. 61,000, being the balance of the Famine Relief Fund, on behalf

of the District Charitable Society. It was desired that the income of this money should be spent on the relief of distressed Natives and Europeans of Calcutta.

The amount is invested in Government Securities, and yields Rs. 1,220 half-yearly, half of which amount is paid over to the Native Committee, the other half being applied to the general purpose of the Society.

Securities with the Bank of Bengal.

KOMUL LOCHUN BYSACK'S BEQUEST—1875.

By a decree of the High Court Rs. 6,700 in Government securities were transferred from the estate of the above-named Baboo, deceased, to "Charity Account," the interest thereon, as it became due from time to time, to be paid to the District Charitable Society for the benefit of poor Hindoos.

Securities in the custody of Accountant-General, High Court.

BHOGOBUTTY CHURN LAWS BEQUEST—1876.

Under the will of the late Baboo Bhogobutty Churn Law, his executors forwarded to the District Charitable Society a cheque for Rs. 5,000 to be invested in Government securities: two-thirds of the interest on which was to be applied to the relief of native paupers, Hindoos or Mahomedans, through the Native Committee, and the remainder for the benefit of other paupers, not Hindoos or Mahomedans; two-third of the interest is paid over to the Native Committee, the other one-third being credited to the general fund.

Securities with the Bank of Bengal.

RAM GOPAL GHOSE'S FUND—1877.

Consists of Rs. 6,100 invested in Government securities in the name of the District Charitable Society.

The interest is applied through the Native Committee for the "benefit of Hindoo widows."

Securities with the Bank of Bengal.

SCHORN BEQUEST—1877.

Consists of Rs. 3,000, invested in the name of the District Charitable Society in Government securities.

By the provisions of the bequest this sum is exclusively for the benefit of the Alms-House.

Securities with the Bank of Bengal.

ALBERT FUND—1877.

Rs. 19,700 are invested in Government securities in the name of the District Charitable Society. The interest is applied through the Native Committee "for the relief of distressed widows and orphans of both Hindoos and Mahomedans."

The following gentlemen are, with the consent of the Central Committee, associated in the administration of the Fund:—Mr Masackjee Rustomjee and Dr. Rajendralal Mitra, Rai Bahadoor, LL. D., C I E.

Securities with the Bank of Bengal.

KALIKISSEN TAGORE'S BEQUEST—1878.

Consists of Rs. 10,000 invested in Government securities.

The annual income is, in accordance with the provisions of the gift, made over to Native Committee for the relief of the Native poor of Calcutta.

Securities with the Bank of Bengal.

MAHARAJAH ROMANATH TAGORE'S BEQUEST—1879.

Consists of Rs. 1,500, invested in the name of the District Charitable Society, in Government securities.

During 1887, one pensioner has been paid Rs. 5 monthly from the interest accruing

Securities with the Bank of Bengal.

MAHARAJAH JOTENDRO MOHUN TAGORE'S WEDDING COMMEMORATION FUND—1880.

FOR THE PURCHASE OF NATIVE CLOTHING.

Consists of Rs. 8,000 in Government Securities.

The interest, viz. Rs. 360 yearly, is to be applied for the purchase of blankets and chudders for distribution among Native paupers every year.

Securities with the Bank of Bengal.

LEPER ASYLUM FUND.—1883.

Consists of Rs. 31,900 in Government securities. Interest is devoted to Leper Asylum.

SRIMATI GOURMONEY DASSI'S FUND—1883.

Consists of Rs. 6,000 in Government securities for the relief of Hindoo paupers.

RAM KANAI SEN'S CHARITY—1883.

Consists of Rs. 700 in Government Securities for the relief of one Hindoo widow.

SRIMATI SHURNOMOYEE DASSI'S FUND.

Consists of Rs. 500 invested in a Government security, the interest of which is paid through the native Committee.

CONES' TRUST.

Consists of Rs. 15,500 invested in Government securities for the "relief of helpless widows and orphans."

Securities with the Accountant-General, High Court.

SRIMATI BOGULA SUNDARI DEBI'S FUND.

Consists of Rs. 500 invested in a 5 per cent. Municipal Debenture, the interest of which is applied by the Native Committee to the relief of a Hindu female.

RAI KRISTODAS PAI BAIADUR'S FUND.

Consists of Rs. 10,500 invested in Government securities, the interest of which is applied to the education and maintenance of pauper Hindu students.

RAJAH DOORGA CHURN LAW'S FUND.

Secretary—O L Fyffe. *Superintendent*—Peter Reade.

Scripture Reader—W R Patterill. *Bankers*—The Bank of Bengal and the National Bank.

THE WOMEN'S WORKSHOP.

No. 6, *Jaun Bazar 1st Lane*.

"The Women's Workshop" was established in 1869 for the purpose of affording, employment to a class of women, chiefly of Portuguese origin, whose extreme poverty, and low condition claim the sympathy and assistance of those who are in better circumstances.

The rates charged for work are not higher than those usually paid to native Durzees. The Workshop is self-supporting. The women are provided with a tiffin of tea and biscuits.

The daily attendance of women averages from 100 to 160. The hours of work are from 9-30 A. M. to 3 P. M.

It is hoped this statement of the objects and constitution of the workshop and the rates now quoted for work, will induce householders to aid the scheme. Orders for plain work will be especially welcome, as but a large number of women are incapable of doing work of higher class.

All orders will be received and promptly attended to by the Superintendent, who will be at all times ready to afford information to those who are interested in the Workshop and its objects.

THE WOMEN'S FRIENDLY SOCIETY,

Patroness.—H. E. the Marchioness of Lansdowne. *President.*—Lady Bayley; *Vice President.*—Lady Roberts.

Committee.—Mrs. Apcar, Mrs. Atkinson, Mrs. Baldwin, Mrs. Gay, Mrs. Boughoy, Mrs. Comley, Mrs. Dyer, Mrs. Ezra, Miss Farquharson, Mrs. Pratt, Mrs. Hyde, Mrs. Dickson, Mrs. Hoernle, Mrs. Jackson, Mrs. Geddes, Mrs. Jordan, Mrs. S. B. Taylor, Mrs. Macdonald, Mrs. Mackenzie, Mrs. Michell, Mrs. Pittar, Mrs. Ralli, Mrs. Stuart, Mrs. Clifford, Mrs. Tarlawny, Mrs. Crombie, Mrs. Sconce, Mrs. James Wilson. *Secretaries.*—Mrs. Luckman and Miss Leslie. *Treasurer.*—Mrs. Pedler.

The Members hope to have the sympathy and co-operation of the public at large, for the object they have in view, viz:—

The encouragement of the teaching and training of women for employment in such industries as may be suited for them, that is, work in which much strength or labour is not necessary, and which can be done within doors, in order that they may not, through idleness or destitution, be driven to an immoral life.

With this view the Society have established an Industrial workshop for women at 145 Dhurruamtollah Street, where women wishing to work at handicrafts will not only be taught some kind of work, but employment will also be found for them.

The hours of work are from 10 A. M. to 5 P.M., with one hour off for the mid-day meal and recreation.

Applications for employment to be made to Mrs. Hoernle, Hony. Secretary, Industrial Department, the Madrasah 7 Wellesley Square.

A Registry Office has also been opened and is managed by Mrs. Crombie, 47 Park Street, where women seeking employment in any capacity can have their names registered,

BOARD OF EXAMINERS.

Established 24th January 1854.

Late College of Fort William, instituted A. D. 1800.

Nr. 17, Elysium row.

President.—The Hon'ble J O'Kinealy. *Members.*—Col H S Jarrett; Pandit Mahesh Chunder Nyaratna, C I E, and Dr. A F R Hoernle.

Secretary and Librarian.—Col Jarrett.

NATIVE ESTABLISHMENT.

Head Maulavi.—Kabir Uddin Ahmad. *Persian Instructor*.—Shikh Muhammad Gilani. *Arabic Instructor*.—*Hindi Pundit*.—Behary Lal Sakula. *Bengalee Pundit*.—Kalipodo Surma. *Head Assistant and Treasurer*.—Jodunath Gupta. *Writers*.—Denonath Dass and Ziaier Rahaman. *Assistant Librarian*.—Ausalat Khan.

GOVERNMENT COLLEGES AND SCHOOLS.

MEDICAL COLLEGE.

Established A. D. 1835. No. 41, Colootollah Street.

UNDER THE DIRECTOR OF PUBLIC INSTRUCTION.

College Council.—J M Coates, M D, Q U I, Principal; G King, M B; R C Sanders; C J H Warden; S C Mackenzie, M D; R C Chundra; R Harvey, M D; D D Cunningham, M B; K McLeod, M A, M D; D O C Raye, M D; J Wood-Mason; R Lidderdale, M D.

Principal of the College.—J M Coates, M D, Q U I.

Professors.—*Materia Medica and Clinical Medicine*, R C Chundra; *Botany*, G King, M B; *Ophthalmic Medicine*, R C Sanders; *Surgery*, K McLeod, M A, M D; *General Anatomy and Physiology*, D D Cunningham, M B; *Comparative Anatomy and Zoology*, J Wood-Mason; *Dentistry*, W T Woods; *Medicine*, J M Coates, M D; *Descriptive and Surgical Anatomy*, D O C Raye, M D; *Chemistry*, C J H Warden; *Midwifery*, R Harvey, M D; *Medical Jurisprudence*, S C Mackenzie, M D; *Hygiene*, R Lidderdale, M D; *Pathology*, J B Gibson, M B; *Teacher of Practical Chemistry*, Taraproseno Roy; *1st Demonstrator of Anatomy*, Debendra Nath Dey, M B; *2nd ditto*, Anooool Chunder Chatterjee.

The Calcutta Medical College Session, 1888-89, will commence 'on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A M. and 4 P M. on or before that date.

Ten free presentations will then be awarded. These are given to students according to their relative position in the University. B A, B L, and F A, examinations, preference being given to those who have passed the highest examination.

No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year. Fees once paid cannot be refunded.

Mahomedan students are required to pay Rs 15 on entrance and one-third fee, i.e., Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

For a single course of lectures on each subject in one year ... Rs. 40

For six months' attendance in each department of hospital practice ... " 60

Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rates fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed above.

If such student has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures.

A student who has not passed the Entrance Examination will receive no class certificates.

College scholarships, prizes, and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice, and Female Certificate classes.

Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the 1st and second years' Test and Honour Examinations respectively.

Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results of the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Charan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

Goodeve scholarship of Rs. 12 per mensem is annually awarded to students of the 5th year on the result of the Midwifery Test Examination of the 4th year.

F. C. Chatterjee scholarship of Rs. 17 per mensem is annually awarded to the best student in Histology at the end of the 4th year.

Abdul Gunny scholarship of Rs. 26 per mensem is annually awarded to the best student at the General Examinations of the 1st to 4th year.

Duke of Edinburgh's prize is awarded to the best in Surgery at the end of the 5th year.

Bhola Nath Bose's prize of Rs. 40 is awarded to the best clinical clerk in Surgery and Medicine in alternate years.

A gold medal and certificates of honour are awarded to the best students in each subject.

Goodeve and Macnamara silver medals are given to the 1st year students in Anatomy and Chemistry respectively.

College scholars, who receive less than Rs. 20 per mensem, are not required to pay Rs. 30 per session.

The holders of the Doorga charan Laha and all other scholarships shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence. This College classes are recognized by all the Medical Schools in the United Kingdom.

The class assistantship of Pathology, Physiology and Comparative Anatomy can be held only by matriculated students of the College.

A lady student who has passed the University F A Examination shall be enrolled and pay fees as a matriculated student. She will get a special scholarship of Rs. 20 per mensem for five years.

Lady students above 17 years of age who have not passed the F A, but have passed the University Entrance or any examination equivalent to it, or a special preliminary examination in the following subjects, will get their tuition free. Students, preferably native ladies from the mofussil may reside in the Sornomye Hostel. Those only need apply who have no friends with whom to reside in Calcutta or whose means are limited. Applications for residence to be made to the Lady Superintendent of the Hostel, or to the Secretary to the Countess Dufferin Branch Committee.

English.—A portion not exceeding thirty lines in length, selected from a standard English author, will be given as an exercise in dictation. Ten errors in spelling (exclusive of technical and other unusual words which will not be counted) will exclude the candidate from further competition. Bad marks will be assigned for defective hand-writing.

A practical paper in grammar and composition.

History.—The leading facts of the histories of England and India.

Geography.—General Geography and the Geography of India in particular.

Arithmetic.—The first four rules, vulgar and decimal fractions and proportion.

This examination will take place at the Medical College on the 12th, 13th and 14th February next. New students will commence their medical studies on 1st of March each year.

The Sir Walter D' Souza's scholarship of Rs. 15 monthly will be annually awarded according to the necessities of each case.

Those Lady students who pass the final Test and Honour Examination of their classes shall receive College certificates qualifying them to practise as Licentiate in Medicine, Surgery, and Midwifery. The fee for each certificate is Rs. 10.

Female students who have not passed the Entrance or a Special Education Test will be admitted into the Eden Hospital to learn Midwifery. These will receive Rs. 20 per mensem. After a year's tuition and bed-side practice, if found proficient they will obtain a certificate qualifying them to practice Midwifery. The fee for each certificate for those taught here is Rs. 3, and Rs. 5 for those taught elsewhere but examined, here.

Female students who have not passed the Entrance or a special Test Examination but who read and write Bengali, can be admitted into the Eden Hospital as pupil dhais.

Of these eight will receive Rs. 6 per mensem and the rest will be taught free.

After 12 month's tuition and bed-side practice, if found proficient, they will obtain a certificate qualifying them to practise midwifery.

GOVERNMENT ENGINEERING COLLEGE.—*Seebpore, Howrah.*

Principal.—S F Downing; *Professor of C E*.—J S Slater; *Professor of Mathematics*.—J. H. Gilliland. *Professor of Natural Science*.—P. Brühl. *Teacher of Drawing*.—J. T. Bartlett. *Teacher*.—V. B. Webber. *Assistant Teachers*.—Dwarkanath Dutta and Surendro Kumar Bose. *Lecturer on Natural Science*.—Baroda Prosad Ghose.

1. The College is under the general supervision of a Board of Visitors appointed by the Government.

2. For admission to the Engineering class a student must be under 19 years of age, and must have passed the Entrance Examination of the Calcutta University.

3. Every candidate for admission to this class must apply in writing to the Principal not later than the 25th of May, furnishing satisfactory proof of his having passed the Entrance Examination.

4. For admission to the Apprentice class a candidate must be between the age of 15 and 17.

5. An examination for admission will be held annually at the College on the third Monday in January. Every candidate must apply in writing to the Principal not later than the 10th of January, for permission to appear at the examination, enclosing a certificate of conduct and a certificate of age.

6. Before an apprentice is admitted to the College, his parent or guardian must sign an agreement.

7. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted.

8. The Engineering class-session begins on the first Monday in June, and the Apprentice class on the first Monday in February.

Head Clerk.—Purna Chunder Chuckerbutty; *2nd Clerk*.—Ganendra Dutt.

A.; Benode Behary Banerjee; Prosonno Coomar Bose; Bholanath Bose; Preonath Dutt; Uma Charan Mittra; Ram Chandra Ghose; Nobin Chunder Chatterjee; Brojendro Nath Roy, and Surveswar Bhattacharjee, B A.

Head Pundit.—Shama Churn Mookerjee. *Assistant Pundits*.—Alok Nath Bhattacharjee; Lalgopal Goswami; Shib Nath Bhattacharjee; Tarini Charn Bhattacharjee. *Writer*.—Achinta Nath Chakravarti.

GOVERNMENT SCHOOL OF ART.*

Nos. 163 to 166, Boitakhana street.

UNDER THE DIRECTOR OF PUBLIC INSTRUCTION.

Principal—W H Jobbins.*Head Master*—Annoda Prosad Bagchi.*Assistant Teachers*—Huri Dass Pal; Hemchunder Ghosal; Kamakha Nath Pal; Gopal Chunder Pal; Sosodhur Banerjee. *Clerk*—Hemchunder Bose.

The courses of instructions pursued in this School have for their object the systematic education of Natives and East Indians as skilled Draughtsmen, Architects, Modellers, Wood engravers, Lithographers and Designers for manufactures. The following are the principal stages of instruction :—

Elementary Linear Drawing; Higher Free-hand Drawing; Free-hand Drawing in light and shade; Geometrical Drawing (elementary and higher course); Painting; Modelling; Elementary design; Technical design; Lithograph and Wood engraving, Frescoe painting; Wood carving and Metal chasing.

Besides these special courses there is a "General Course" for such students as desire only to study drawing as a part of their general education; it is also a useful preparatory course for those who may not have determined upon the special one to which they may wish ultimately to devote their attention. Classes are held every day (except Saturdays and Sundays), from 10½ A M till 4½ P M.

FEES.—Three Rupees per month. Entrance fee three Rupees. All fees must be paid in advance. Any student whose fees remain unpaid beyond the fourth day of the month for which they are due, will be considered to have left the school. In order to be re-admitted, he must again send in a form of application, and pay a fresh entrance fee.

ADMISSION.—Students are admitted at any age, provided they have received, or are receiving, an elementary general education, either English or Vernacular. They will also be required to give satisfactory evidence of good character. Printed forms of application for admission may be obtained at the school between the hours of eleven and four. When filled up, these forms must be delivered to the School Clerk, together with the entrance fee. Every student will be considered a probationer for the first six months from the date of his entering upon any of the special courses; at the end of that time, if it should be found that he does not possess sufficient aptitude for the study upon which he has entered to ensure his success in it as a profession, notice to that effect will be given to his parents or guardians, in order that he may enter upon any other pursuit for which his abilities may be better fitted. Free studentships and scholarships ranging in value from 5 to 15 Rupees a month are awarded to deserving students, to assist them in carrying on their studies.

Students who have passed with credit through any of the courses above laid down will be entitled to receive an official certificate of proficiency in the subject of that course; but such certificate will in no case be given before the expiry of the minimum period assigned to each course.

CALCUTTA MADRASAH OR MAHOMEDAN COLLEGE.

Established in 1782. Wellesley square.

UNDER THE DIRECTOR OF PUBLIC INSTRUCTION.

Principal.—Dr A F R Hornle.

Average number of students—1212.

COLLEGE DEPARTMENT.

Amalgamated with the Presidency College since July 1888.

ARABIC DEPARTMENT.

Moulvi Abdul Hai, Head Moulvi; Moulvi Abdur Rahim, 2nd ditto; Moulvi Mahomed Ismail, 3rd ditto; Moulvi Vilayat Husain, 4th ditto; Moulvi Sadat Husain, 5th ditto; Moulvi Luthfur Rahman, 6th ditto; Moulvi Abdur Razzaq, 7th ditto; Moulvi Abdul Hamid, 8th ditto; Moulvi Mahomed Ashraf, 9th ditto; Moulvi Abdul Hamid, 10th ditto; Moulvi Zillur Rahim, 1st English Master; Moulvi Abdulla, 2nd ditto.

* Return not received.

ANGLO-PERSIAN DEPARTMENT.

W Billing, Head Master (on deputation) ; G. Lorimer, M. A. (offg. Head Master) ; Nobin Chunder Ghose, 2nd ditto ; Moulvi Mahomed Ibrahim, 3rd ditto ; Moulvi Abdul Hakabid 4th ditto ; Moulvi Abdul Karim, 5th ditto ; Moulvi Mahmud 6th ditto ; Moulvi Zuhur Alam, 7th ditto ; Moulvi Mir Ikram Ali, 8th ditto ; Moulvi Karamat Ullah, 9th ditto ; Moulvi Nurul Alami, 10th ditto ; Moulvi Sayyid Wajhulla, 11th ditto ; Moulvi Ahmad and Moulvi Faiz Bukhsa, additional. T. Atkinson, C S, Sir Alexander Wilson, L P Delves Broughton, Col. Waterhouse, B S C.

The objects of this Institution are the protection and rearing up of female orphans of pure European parentage, giving them a plain and useful Christian education, and sending them out, at fit ages, as nursery governesses and domestic servants.

This Institution is supported mainly by subscriptions and donations.

MILITARY ORPHAN SCHOOLS.*

UPPER AND LOWER ORPHAN SCHOOLS.

Established A. D. 1783. 4, Diamond Harbour road.

Ex-officio Secretary—Brigade-Surgeon G Chesnaye.

Lady Superintendent—Mrs Colquhoun Grant.

The Upper School of the Military Orphan Society is now a Government Institution for the reception of orphans of officers of the Bengal Army.

The Society was projected in 1782 by Major-General Kirkpatrick. A proposal for its establishment was circulated to the officers of the Army in August 1782, which was cordially agreed to with scarcely a single exception. The first meeting of the Society was held on the 20th of March 1783.

The objects of the Society, as stated in the original proposals and as ever since acted upon, are to provide fixed funds or resources for the maintenance of the children of deceased Officers; to relieve Officers from the burden of contributing to private subscriptions in behalf of individual orphans; and in the hour of sickness and of danger to yield to them the consolation that, in the event of their dying poor, a certain provision would be secured to their offspring.

The Lower Orphan School for the children of soldiers is in the same place and under the same management; but in a different building.

FREE CHURCH ORPHANAGE BOARDING AND NORMAL SCHOOL.*

No. 32-6, Beadon street.

Number of Pupils—90.

This Institution is connected with the "Ladies Society of the Free Church of Scotland for promoting the Christian education of the Females of India."

Lady-superintendent—Mrs K S Macdonald.

Head Teacher—Miss Nicolson. *Assistant Teachers*—Miss S M Bose; Miss K S Pal; Miss M Nath. *Teacher of Mathematics*—Rev G D Maitra. *Pundits*—Modosoodum Mookerjee, and Troyluckya Nath Bhattachary, esq. *Singing Master*—A. Cullen. *Nutron*—Mrs. Dutt. *Medical Attendant*—Dr. C M Ghose.

The object of the Institution is to give a useful Christian education to daughters of Native Christians of every denomination, and to such orphan girls as may be brought to it. It is supported partly by funds collected by the Ladies' Society in Scotland, and partly by the contributions of Christian friends in India, the fees of the pupils and a grant from Government.

The *Normal School* trains Bengali Christian girls to be teachers. The highest class consists of girls who are studying for the Entrance Examination of the Calcutta University.

CHURCH OF SCOTLAND LADIES' ASSOCIATION FOR FOREIGN MISSIONS.

Established 1838. 125, Bow Bazar street.

This institution has been established under the orders of the High Court of Judicature in Bengal for the purpose of carrying out the provisions contained in the Wills of Miss Sarah Bruce and Miss Mary Ann Bruce for the education and maintenance of half-caste and Eurasian female children whether legitimate or otherwise.

The Governors have the entire control of the affairs of the Institution and of its income.

The election of girls to the foundation is held annually in the month of August; notice of the election is given at least a month before hand in the Calcutta Gazette, and in three of the principal Calcutta Newspapers; no girl is eligible who, on the date of election, is under five or over ten years of age, and preference is given to orphans or those deserted by their parents. Each girl elected shall be educated and maintained by the Governors at some suitable boarding school approved by the local Government, regard being had to the character and efficiency of the school, the cost of education and maintenance, the religious denomination of the girl, and other material circumstances. The object sought is to fit the girls benefited by the

Institution for a respectable and useful station in life, the general character of the education being that given in primary and middle schools as defined in the code of Regulations for European schools. In ordinary cases no girl will be educated or maintained by the institution after she has attained the age of 17 years; but in the case of those electing and permitted to become pupil-teachers, the limit may be extended to 20 years.

In special cases of necessity, grants of money or loans may be made to managers of boarding schools for the purpose of erecting or furnishing buildings for the accommodation of foundationers.

CATHOLIC COLLEGES AND SCHOOLS.

ST. XAVIER'S COLLEGE.

Established A D 1860.

Affiliated to the Calcutta University, January 1862.

ENTALLY FEMALE ORPHANAGE.

ESTABLISHED A D 1844.

Entally, North road.

NUMBER OF BOARDERS—266.

Teachers—Seven Loretto Sisters with Monitresses.

The object of the Institution—To provide a home and a sound Catholic education for Catholic Orphans. When the children have reached the age of sixteen, they are either employed as Monitresses in the school or are allowed to accept of any eligible offer of marriage that may be made through the Convent authorities. Those having relatives return to their homes when their education is completed. All receive a training which qualifies them to take up a situation in case no other alternative should present itself.

The Institution is supported by the fees of the boarding school, the sale of the orphans' work, a Government grant-in-aid, and by charity.

The terms for such as can contribute any thing towards the maintenance of those they place in the Orphanage are Rs. 6 per month for the Lower, and Rs. 12 for the Upper Orphans.

INSTITUTION OF THE IMMACULATE CONCEPTION.

CHANDERNAGORE.

This Boarding and Day School, conducted by the Sisters of St. Joseph of Cluny, possesses many advantages deserving the special attention of parents and guardians. Its situation on the strand in a large, well-aired and upper-roomed house has won for many years a deserved reputation of healthiness. The Chandernagore Railway Station is about 15 minutes drive from the Convent. The pupils' deportment and manners are scrupulously attended to. No efforts are spared to make them accomplished, not only in every branch of useful knowledge, but also in every point of woman's duty. Particular care is bestowed on the health, comfort, and proficiency of the pupils.

The course of studies comprises the ordinary branches of a solid English education, French, Vocal and Instrumental Music. Drawing and Painting, with every branch of useful and ornamental needle-work. As regards Religious Instruction, Catholic pupils only are obliged to attend.

Terms—Entrance fee Rs 10; Boarders, Rs 25; Day-boarders, Rs 18; Day-scholars, Rs 6; Piano lessons, Rs 8, if given by a Master Rs 10; Singing Rs 8; Drawing and Painting, Rs 4; Washing and Mending, Rs 2 per month.

Doctor's fee Rs 12 a year to be paid in advance.

Note—Parlour Boarders are not received.

William Aitchison, Dooloo Cachar, T. B. Curtis, Tukvar Tea Estate, Darjeeling and W. B. Hudson Mozafferpur.

PUBLIC HEALTH SOCIETY FOR CALCUTTA AND ITS SUBURBS.

This Society has been formed with a view to the promotion of the Public Health by means of improved sanitation in Calcutta and its Suburbs. Its objects are—

1. To diffuse information on sanitary topics, arouse public interest in them, and generally popularize the ascertained results of science as to the laws of health and preventable disease.

2. To bring together a body of influential persons, representing every class in the community, European and Native, who may, by sustained effort and combined action, both form and strengthen an intelligent public opinion, and give expression to that opinion in a manner calculated to command attention; and who may thus co-operate with and aid Government and the Municipality in initiating and carrying out sanitary improvements.

3. To provide a convenient opportunity for the discussion of topics of general Municipal interest, as, for instance, such amendments of the Municipal Act or alterations of Municipal Taxation, as experience may show to be desirable. Among the topics which might, at early date, be thus discussed would be the propriety of including the Suburbs of Calcutta within Municipal limits and providing for city and Suburbs alike a single scheme of sanitary administration.

4. To promote the election, as Commissioners, of persons interested in sanitation.

5. To call attention to particular sanitary evils, and to assist private persons in their efforts to secure efficient sanitation throughout the City and Suburbs.

6. To co-operate with the Association which has been formed for the purpose of sanitary reform in the Suburbs.

Persons who are desirous of joining the society are requested to forward their names and addresses to the Honorary Secretary, Mr W J Simmons, 6, Hastings' street Calcutta.

CALCUTTA RATE-PAYER'S ASSOCIATION OF WARD No. 2.

Directors.

Chairman, L A Smith.

Vice-Chairman, C E Dissent.

Rev S B Taylor.

Dr S O Moses.

C A Tweeddale.

W G Wells.

Honorary Secretary and Treasurer, Arthur O E Kennedy.

The object of the Fund is to enable members of the domiciled community to make a provision for their families on the mutual benefit system. Every member of a family, without distinction of sex and between the ages of 18 and 55, can join the Fund and appoint any one as the nominee to receive the bonus mentioned below.

The benefits of the Fund are not confined to members of the Eurasian and Anglo-Indian Association, but any Eurasian or domiciled European can join it.

The Fund consists of three classes to suit the circumstances of every body. For Class A the entrance fee is Rs. 6 and a subscription of one rupee on the death of a member of the class. For Class B the entrance fee is Rs. 2-8, and a subscription of eight annas on the death of a member of the class. For class C the entrance fee is Rs. 2-4 and a subscription of four annas on the death of a member of the class. These payments will be found to be about 30 per cent. below the premia of insurance offices. In addition to the above entrance fees, the subscriber pays the stamp-duty (8 annas) leviable by law on each entrance certificate.

The nominee of a subscriber to Class A is entitled on the death of such subscriber to a bonus of as many rupees as there are subscribers in the class at that time; of Class B to as many eight annas as there are subscribers in the class; and of Class C to as many four annas as there are subscribers in the class.

Subscribers to more than one class are entitled to the benefit of as many classes as they join.

The number of subscribers in each class will be limited to 1,000; vacancies being filled up as they occur, and when this number is reached, a nominee of Class A will be entitled to Rs. 1,000; of Class B, to Rs. 500; of Class C to Rs. 250.

The bonus is not forfeited on the death of a nominee, as another can be appointed on payment of a fee of 8 annas for a fresh certificate.

RULES RELATING TO OPENING OF MUSEUM TO PUBLIC, &c.

The Museum is closed to the public for repairs, cleaning, &c., from the 1st to the 15th May, and from the 1st to the 15th November in each year; at all other periods the Museum is open to the public free on all days, Sundays included, excepting Thursday and Friday in each week.

Admission on Thursdays and Fridays is by annual tickets obtainable from the Trustees, or the Superintendent of the Museum.

The Museum is open from 10 A.M. to 5 P.M. from 1st February to 1st May, and 16th May to 1st November, and from 10 A.M. to 4 P.M. from the 16 November to 31 January.

Students who may desire to examine any part of the collections with more attention than can be done in the ordinary way of viewing the Museum should apply in writing either to the Superintendent, or to the Officer in charge of the Department they wish to consult, stating their profession or business, their place of abode and the purpose for which the application is made.

The same rule applies to persons wishing to consult the Museum Library.

Zoological Gardens.

SCALE OF PLEADERS' FEES.

The following rules, made by the High Court under section 27 (c) Act XVII. of 1879, are in supersession of all previous rules on the subject.

In these rules "pleader" includes every legal practitioner entitled to appear, plead, and act in the Court of Small Causes of Calcutta; and "suit" includes every proceeding treated as a suit.

The fees payable in respect of an adversary's advocate or attorney appearing in the court, shall be as follows :—

			<i>Advocate</i>	<i>Attorney</i>
In suits exceeding Rs. 100, but not exceeding 500 in value, a fee of Rs. 51			34	
" 500,	" 1,000	" "	85	51
" 1,000,	" 1,500	" "	136	68
" 1,500,	" 2,000	" "	170	85

No fees shall be allowed under this rule in any suit for a less value than Rs. 100.

B.—A Vakeel of the High Court will be allowed a fee equal to that of an Attorney.

The fees payable in respect of an adversary's pleader appearing in the court shall be as follow :—

1. suits not exceeding Rs.	10 in value, a fee of Rs.	1.
exceeding "	10, but not exceeding Rs.	20 in value a fee of
" 20,	" "	50 "
" 50,	" "	100 "
" 100,	" "	200 "
" 200,	" "	300 "
" 300,	" "	400 "
" 400,	" "	500 "
" 500,	" "	700 "
" 700,	" "	800 "
" 800,	" "	1,000 "
" 1,000,	" "	1,200 "
" 1,200,	" "	1,400 "
" 1,400,	" "	1,600 "
" 1,600,	" "	1,800 "
" 1,800,	" "	2,000 "
		65

Except in these rules otherwise provided, fees, whether in amount or otherwise, shall be in the absolute discretion of the court. They shall be exclusive of any compensation which the court may be entitled to grant, and shall be fixed by the court at the termination of the suit, and the court shall certify accordingly.

Fees shall not be allowed in cases entered as compromised, or in any cases where the defendant has intimated to the plaintiff his intention not to contest the suit.

For the purpose of determining the fee to be allowed, the amount of debt or damage claimed, or the value of the property in dispute, shall be deemed to be the value of the suit.

Where an advocate appears instructed by an attorney or pleader, fees may be allowed to both, where both have attended through the actual hearing of the case.

Where an attorney or pleader, or two or more pleaders appear for the same party, one fee only shall be allowed, viz. the fee of the leading practitioner.

When there are several defendants, case with separate interests, one fee may be allowed to each successful defendant.

**THE GARDENER'S CALENDAR, MEMO. OF CURRENCY NOTES, MEMORANDA
FOR TWELVE MONTHS OF THE YEAR, BREAD, BUTTER AND MILK
ACCOUNTS, ACQUITTANCE ROLL OF SERVANTS, DHOBI'S
ACCOUNT AND HOUSEHOLD RECEIPTS.**

GARDENER'S CALENDAR.

JANUARY. VEGETABLES.

From this month forward vegetables of every kind will need to be constantly watered, and, if once or twice a week, with liquid manure, all the better.

Water Squashes every day copiously.

Make sowings of Radishes, Mustard, Cress, Spinach, and Lettuce for a succession. In the Upper Provinces Peas may also be sown during this month; but not in Bengal. Sowings of Celery may now be made for young plants to preserve through till the following cold season, if thought worth the while.

Put out young plants of Cabbage and Knol-Khol to fill up vacant-places in beds. Put out young Celery plants for succession.

Celery will now be in a condition fit for earthing up to blanch.

Keep a few plants of Lettuce, Mustard and Cress for seed. Reserve one or two of the earliest formed heads of Artichoke for seed in Bengal: it is not necessary to do so in Upper India.

The plant should now be taken up for the manufacture of Tapioca and Arrowroot.

FRUITS.

Strawberries will now be blossoming and fruiting, and will require to be well watered and nets or other means provided to protect them from birds.

Water Loquats copiously.

Fig trees, Peaches, Plums, and Grape-vines should now be pruned.

ORNAMENTAL PLANTS.

Commence giving surface-dressings of fresh cow-manure to Roses.

Chrysanthemums will have done flowering and should be taken out of their pots pulled to pieces, and put out in a nursery-bed for a supply of new plants.

The following plants will be much benefited by being well pruned in at this season:—

Allamandas.
Bignonias.
Hamelias.
Hibiscus mutabilis.
—rosa sinensis.
—Syriacus.

Ixoras.
Jasminums.
Jatropha pandurifolia.
Lagerstromias.
Lantanas.

Malvaceus arboreus.
Mussaendas.
Nyctanthes.
Quisqualis.
Tecomas.

FEBRUARY. VEGETABLES.

Little can be done during this month in the cultivation of European vegetables except copiously watering those that are already in the ground.

Sowings of Lettuce, Mustard and Cress, may still be made.

To Peas that are reserved for seed, less and less water, if any, should be given as they ripen.

FRUITS.

Water Loquats liberally, as well as Peach, Plum, Lichee and Mangoe trees, as soon as the fruit is set.

Earth up and water Pine-apples.

Fertilise Vanilla flowers.

Sow seed of Water-melon.

ORNAMENTAL PLANTS.

This is the best season for transferring such Orchids as require it to new pots, or baskets.

Hoyas will be starting into growth and should either have the soil in the old pot partially changed, or be potted afresh; they will now bear dividing, so as to make several plants out of one.

Re-pot or re-plant *Caladiums*, *Arum pictum*, *Manettia Cordifolia*, *Cryptopora flava*, *Hibiscus Jerroldianus*, *Gloriosa superba*, and all such-like plants, that have been lying dormant during the cold season, as well as the several species of *Crinum*, *Globba*, *Pancratium*, *Alpinia*, *Hedychium*, *Hippeastrum* and *Kæmpferia*.

Put in the border *Petunias*, *Phloxes*, *Salpiglossia*.

Sow seeds of *Poinciana*, *Tecoma*, &c.

Pot off the choice kinds of *Roses* raised from cuttings laid down in November and keep them in the shade, well watered.

Roses now may be layered with success.

MARCH.

VEGETABLES.

About the middle of this month remove the soil from the stools of *Asparagus* and cover them over again immediately with fresh soil, well enriched with old manure, and commence watering copiously.

Take up *Carrots* and *Beet*, and store them in pots of dry earth for future use.

Take up and store *Onions*.

At the beginning of this month, in the Upper Provinces, seeds of *American Squash* should be sown.

The stumps of *Cabbages* that have been out should be allowed to remain and be watered, as by their sprouts they will afford nice gatherings for the table for some time to come.

Dry the leaves of *English Sage* and *Thyme*, and store in bottles.

Make sowings of *Parsley* in a shady place.

FRUITS.

Liches will be ripening; cover the trees betimes with nets, to save the fruits from birds.

Well water *Peach*, *Plum*, and *Mangoe* trees, and *Grape-vines*.

Fertilise *Vanilla* flower.

Cut back closely all wood, of last year's growth of *Bael* trees.

This is the season both in *Bengal* and *Upper India* for sowing the seeds of fine kind of *Melons*.

Thin out *Plantains*, remove the soil from the roots, fill in with fresh cow-manure and water liberally.

ORNAMENTAL PLANTS.

Withhold water from *Dahlia*s, and when the stems have died down, take up the tubers and store them in pots of earth or sand in a dry godown.

Treat in the same way the several species of *Oxalis*.

Withhold water from *Gloxinia maculata*, *Lilium longifolium*, and *Richadia Ethiopica*, and when the stems and leaves have died down, remove the pots with the bulbs within them undisturbed, to some dry godown, till the time of re-potting in the following October. Other bulbous and tuberous-rooted plants of a similar description should, of course, receive similar treatment.

Cut well back the wood of last season's growth of shrubs, such as *Poinsettia Holmkiöldia*, *Hamiltonia*, *Phlogacanthus*, *Aphelandra*, *Buddleia*, *Thunbergia* and *Cassia alata*, that have lately finished flowering.

Euphorbia jacquiniiflora should be treated in a similar way, and the cuttings inserted in pots of sand kept in a sheltered place and well watered; they will afford a nice stock of new plants.

Take up the choicer kinds of *Verbena* to pot and keep under shelter during the rains.

APRIL.

VEGETABLES.

Little can be done now in the cultivation of vegetables.

Well water *Asparagus*.

Gather seed of *Onion* and *Salsify*.

Put *Yams* in the ground and construct trellis-work for them to trail upon.

FRUITS.

Water Melons unremittingly.

Keep Strawberry-plants watered while the hot season lasts.

ORNAMENTAL PLANTS.

The leaves of Gladiolus and some other bulbous plants will be lying down. The pots containing them should be removed to some dry place, where they may remain till the time for re-potting comes round again.

Achimenes, which at this time will be starting into growth, should be potted and well watered as soon as they appear above ground.

MAY.**VEGETABLES.**

Asparagus will now be in season, and the beds must be kept most plentifully watered.

Lettuce may be raised in a shady place from acclimatized seed. Beyond this there is nothing that can be done as regards European vegetables.

At the close of the month is the proper time for sowing most of the native vegetables, the several kinds of country Beans, Cucumbers and other Gourds; of Maize, Ochre, Brinjals, &c.

This is the period likewise for planting Ginger, Arrowroot, Jerusalem Artichoke, Kuchoo or Ghoyan, Sweet Potatoes and the Tapioca plant.

FRUITS.

Continue to water Pine-apple.

This is the proper season for inarching and making gootees or layers of all the different kinds of fruit-trees.

ORNAMENTAL PLANTS.

There is little to be done in this department besides watering abundantly young and choice plants

JUNE.**VEGETABLES.**

Maize and the ordinary country vegetables may still be sown. There is nothing that can be done as regards European vegetables.

FRUITS.

Seeds of Mangoes should now be sown for a supply of stocks for inarching upon.

The operations of gootees, layering, and inarching, may still be carried on, and cuttings laid down to strike.

ORNAMENTAL PLANTS.

The slips of Chrysanthemum laid down in January will now have become large plants. They should be taken up from the nursery-bed and pulled apart; in each rooted slip be potted in a single pot, and those of the choicer kinds put under shelter before the heavy rains set in.

For potted plants, which are to be left exposed to the weather during the rains bricks should be laid whereon the pots may rest out of access from worms.

At the end of this month cuttings of most tropical plants may be put down for striking.

As soon as the rains have set in, examination should be made to ascertain where plants are liable to suffer from the lodgment of water around them, and the speediest means that can be devised be taken for draining it off.

JULY.**VEGETABLES.**

During this month sowings of most native vegetables, such as Brinjals, Ochres, Pulwals, Cucumbers, and the different kinds of runner Beans and Gourds may be continued.

Arrowroot, Ginger, Turmeric, and Jerusalem Artichoke about this time will require earthing up.

The crowns of Pine-apples, of a fine kind when wrenched off, should not be thrown away, but inserted in pots of sand under shelter. If watered regularly, they will soon form beautiful healthy plants.

This is the best time for budding Peaches, Plums, and trees of the Orange and Lemon tribe.

Sow Indian Sorrel and Cape Gooseberry.

ORNAMENTAL PLANTS.

At this season sow seeds of—

Amaranthus.	Ipomœa rubro-cœrulea.	Quamoclit.
Calonyction.	Martynia diandra.	Sesamum.
Carthamus.	Nicandra physaloides.	Spilanthes Oleacea.
Cockscombs.	Nicotiana.	Sunflowers.
Dahlia.	Pentapetes Phœnicia.	Zinnia.
Datura.		

On examining Dahlia tubers that have been stored away in pots of earth or sand it will very likely be found that they have begun to make shoots; if so, they should be potted immediately.

Gloxinia maculata will now require to be re-potted.

Now is the most favorable time for budding Roses.

This is the most successful season for striking cuttings of all tropical plants, which can be propagated in that way.

Cuttings also of Rose Edouard, Devoniensis, and the China Roses will strike at this period.

AUGUST.

VEGETABLES.

Sowings of Celery should now be made in pots under shelter from the rains. The seed will be slow in germinating; but it is important that plants should be brought as forward as possible for planting out when the rains are over in October.

At this time also Asparagus-seed should be sown, for a supply of plants to make new beds within October, if needed.

Sow the small kind of Tomato.

FRUITS.

It will be found that Peaches, Plums and the Orange and Lemon tribe, may now be budded successfully.

Cuttings also of the Orange tribe now laid down will strike readily.

The fruit of Guavas, Custard-apples and Pomegranates should be tied up in fine muslin, to protect them from the attacks of birds and vermin.

Now is the season for planting out suckers or off sets of Pine-apples.

ORNAMENTAL PLANTS.

Roses may be budded successfully during this month.

Stenandria floribunda and many of the choicest tropical plants may now be propagated by cuttings in sand under glass.

SEPTEMBER.

VEGETABLES.

Make sowings of Patna Pea.

Commence sowings of Cauliflower, Cabbage, Knol-Khol, and Artichoke in pots under shelter, or on a raised piece of ground under a hooga, in order to have plants well forward for putting out in the open ground as soon as the rains are over.

FRUITS.

Peach-stones sown now, will come up in February, and afford stocks for budding upon in August.

Prune away the lowermost leaves of Coconut-trees.

ORNAMENTAL PLANTS.

Sowings of German Aster, Heartsease, and Cineraria should be made this month, as these plants take a long time to mature for blossoming favorably.

Gardener's Calendar.

At the beginning of this month sow Balsams.

Richardia Ethiopica and the several species of *Oxalis* will now be moving. They should be potted and brought to the light immediately they appear above ground.

This is the season for a general pruning of Rose-trees.

OCTOBER.

VEGETABLES.

As soon as the rains are well over, no time should be lost in preparing the ground and making sowings of Turnips, Carrots, Peas, Beans, French Beans, Lettuce, Tomato, Spinach, Endive, Salsify, Mustard, Cress, Radishes, Beet, Onions, and Leeks.

Sow in Bengal English Cucumber-seed and American Squash.

Put out in their places in the open ground young plants of Cauliflower, Cabbage, Khol-Khol, Artichoke, and Asparagus.

FRUITS.

Now is the season for making up Strawberry-beds and putting in the plants.

In the Upper Provinces gather Putwa, before it is injured by the cold.

Sow seeds of—

Almonds.
Avocado Pear.
Bencoolen Nut.
Cowa-mangosteen.
Custard Apple.

Guava.
Hog-Plum.
Khirnee.
Lichee.
Peaches.

Plums.
Pumplenose.
Strawberry.
Wampee.

ORNAMENTAL PLANTS.

About the middle of this month is the time for making sowings of all the English annuals, either in pots or on a raised border under a hooghla.

Pots containing bulbs, of *Lilium longifolium* should be well soaked with water, and about twelve hours afterwards, the soil being thus rendered perfectly loose, the bulbs should be carefully taken out and re-potted.

This is the best time for imported bulbs to arrive for potting, such as Hyacinths, Anemone, Ranunculus, and the several kinds of Narcissus, Iris, Ixia, &c.

Re-pot—

Aloysia citriodora.
Androsabinum.
Carnations.
Centradenia.
Columbine.
Daisies.
Franciscas.

Geraniums.
Gleum.
Habrothamnus.
Heliotrope.
Hydrangea.
Iris.
Linum.

Lophospermum.
Pinks.
Plumbago rosea.
Scabious.
Sweet William.
Verbenas.
Violet.

In Upper India repair the paths.

NOVEMBER.

VEGETABLES.

Make successive sowings of Peas, French-Beans, Turnips, Carrots, Radishes, Lettuce, Beet, Mustard, and Cress.

Thin out betimes Turnips, Carrots, and Beet.

Make successive plantings of Cauliflower, Cabbage, Khol-Khol, Lettuce, and Celery. Stick Peas before they begin to fall about.

Earth up Potatoes.

Yams are now fit to be taken up for use.

Plant out Onion-bulbs for obtaining a crop of seed from in April.

Take up Mint and plant it in a fresh soil, well enriched.

FRUITS.

By the end of this month it is well to lay open the roots of Mangoes, and also of Peaches, Plums, and Grape-vines, and to withhold water entirely, in order to accelerate the fall of the leaf and the ripening of the bearing wood.

ORNAMENTAL PLANTS.

This is the best season for putting down cuttings of all kinds of Roses, and indeed of most exotica, natives of a colder climate.

The several species of Canna may now be dug up, parted, and planted in fresh ground.

DECEMBER.

VEGETABLES.

Make sowings of Radishes, Mustard, Cress, Lettuce, Peas, and French-Beans for successions.

Put out fresh plants of Knol-Khol, Cabbage, Cauliflower and Celery.

The most advanced crops of Celery will be now in a condition for earthing up to blanch previous to use.

Water well Celery, Squashes, Radishes, and Asparagus seedlings.

Withhold water from old Asparagus plants, that they may die down and go to rest.

FRUITS.

Gather Roselle.

Well water Cape Gooseberries. In the North-West provinces the plants should be covered in at night during the cold months, or they will be much injured by the cold, and the fruit will not ripen.

Place seedling Bilimbia in a warm sheltered place during the cold months.

Prune Fig-trees, Peaches, and Grape-vines.

Towards the close of the month cover again the roots of fruit-trees that had been exposed, with fresh well-enriched soil.

ORNAMENTAL PLANTS.

Put down cuttings of Aloysia citrodora, Heliotrope, Geranium, Pinks, Carnations Habrothamnus, and Verbenas.

Allow to dry down Arum pictum, Gesnera tubiflora, Sprekelia, the varieties of Caladium and such-like potted bulbous plants.

In the North-West Provinces cover over at night, to protect from frost, young Heliotropes, Tropaeolum, Canary Creeper, and seedling Menhdee plants.

Keep under the shelter of a warm verandah Ixora Javanica, Hoyas, and Vanilla plants, that are in pots.

Make succession sowings of such quick-growing things as Browallia, Linaria, Cuphea, Mignonette, French Marigold, and Convolvulus Major.

German Asters, Cinerarias, and Pansies will require repotting in a richer soil.

NOTES ON SOME ORNAMENTAL PLANTS,
SHRUBS AND TREES.

[The preceding Calendar and the following Notes, the Compilers beg to state, are extracted from Firminger's *Manual of Gardening for Bengal and Upper India*.]

ANNUALS.

Few persons, perhaps who in this country care to cultivate a flower-garden at all would be willing to dispense with annuals.

For those who do not desire to cultivate more than a limited few, I subjoin a list of such as are never likely to cause disappointment in flowering, if only the seed prove good and germinate.

Acoronium roseum.
Ageratum Mexicanum.
Aster Chinensis.
Brachycome iberidifolia.
Browallia elata.
Cacalea coccinea.
Calendula pluvialis.
Calliopsis, of sorts.
Callisthoe digitata.
Centranthus macrorrhizon.
Cuphea purpurea.

Delphinium.
Dianthus Chinensis.
Didiscus cæruleus.
Gaura Lindheimeria.
Iberis.
Ipomoea limbata.
Linaria.
Linum grandiflorum.
Lobelia ramosa.
Lupinus, of sorts.
Malecomia maritima.

Mimulus.
Nemophila insignia.
Petunia.
Phlox.
Portulaca.
Reseda odorata.
Rhodanthe Manglesii.
Salpiglossia.
Tagetes, of sorts.
Tropaeolum, of sorts.
Whitlavia grandiflora.

The following is a list of those the seeds of which should be sown in June and July :—

Amaranthus Tricolor.	Desmodium gyrans.	Nicotiana of sorts.
—caudatus.	Eracum Terarionum.	Nicaandra physaloides.
—hypochondriacus.	Gomphrena Globosa.	Pentapetes phœnicea.
Carthamus tinctorius.	Hibiscus giganteus.	Quamoclit vulgaris.
Celosia cristata, and	—Lindleyi.	Sesamum Indicum.
varieties.	Ipomœa rubro-erulosa.	Spilanthes oleracea.
Orotalaria juncea.	Martynia diandra.	Zinnia elegans.
Datura, of sorts.		

In the case of most annuals the time of sowing the seed is when the rains are over, about the middle of October. In the Upper Provinces the sowing should take place as soon as the abatement of the heat will allow, in order that the seedlings may be well advanced before the weather sets in at its coldest, during which period they remain quiet stationary, making little or no growth whatever. Nasturtiums, for instance, with the pretty Canary Creeper, must be sown in time to make a good growth before the frosty nights come, when they have to be carefully protected from the cold. If the sowing be deferred till the cold season is over, the plants will be killed by the approach of the hot season before they have put forth a blossom.

In Bengal again there are certain of the annuals which takes the whole of the time that the cold weather lasts to complete their growth, and only come into blossom just at its close. If the seeds of such kinds be not sown very early, it amounts almost to a certainty, that the plants will die without flowering. Among these particular may be mentioned Cineraria, Germ in Asters, Jacobina, and Salpiglossia.

Other on the other hand, blossom within a much shorter period; of such it is advisable always to reserve a portion of the seed for sowing in November. Among these may be mentioned more especially Nemophila and Larkspur the seed of which will not germinate till the weather has become quite cold, and when sown early is liable to be lost before germinating.

Sowing annuals in pots is, no doubt, the more sure and economical plan; for in that case the seeds are comparatively safe from the ravages of ants, of all things the most to be guarded against.

It is essential that the soil used should be of a loose description, so that there be as little risk as possible of breaking the tender thread-like roots of the seedlings in the process of what is called "pricking out." No better compost can be used than that recommended by Mr. Russ for the purpose, consisting of—

Leaf mould	...	8 parts.
Common mould	...	8 "
Sand	...	1 part.

The seeds when sown should be covered with nothing more than a mere sprinkling of soil pressed down upon them gently with the hand.

It is of the utmost importance that the seedlings should from the very first, have during the day, all the light and the air that can possibly be given them short of absolute sunshine, and at night, when the weather will admit, be put out in the open air to receive the dew.

The mode of raising annuals, however, attended with least trouble is to select a small plot of ground just of sufficient size for the purpose; well dig it, and make it very light and mellow with vegetable mould, and perfectly level. Then divide it off into little compartments and in each sow a different kind of seed, and affix a label. But a better plan yet, in my opinion, is to draw drills over the plot at the distance of half a foot between each drill, and sow in them the different kinds of seeds in succession. It is thus known exactly where to look for the seeds to come up; when up also they are far more easily transplanted from drills, than when seeds has been sown broadcast. Still, whichever plan is adopted the whole plot must be sheltered from the sun during the day and in bad weather at night with a covering of houghs, supported on a bamboo frame about three feet from the ground. About four-and-twenty hours previous the soil should be well drenched, so that at the time of sowing, without being wet and cloggy, it may be found moist and mellow.

"Annuals," says Sir J. Paxton, "with exception of a few particular sorts, all will derive great benefit from being transplanted. It will check the natural exuberance of their growth, and promote the production of flowers." "I am convinced," says Mr. M'Meehan, head gardener formerly to the Agri-Horticultural Society, "that annuals in this country are improved by transplanting."

As a general rule for guidance in this matter, I have observed, with regard to all herbaceous plants as well as annuals, that those which love a rich damp soil, such as *Mimulus*, *Neonophila*, German *Aster*, *Cineraria*, *Balsam*, &c., in no way suffer, but are rather benefited by transplantation; while those plants the natural locality of which is a dry, arid soil, such as *Lupinus*, *Portulaca*, *Poppy*, *Eschscholtzia*, *Mignonette*, &c., suffer severely and often irrecoverably from the process.

Seeds of annuals, such as it has been stated suffer too great a check from being transplanted, may, especially when seed is plentiful, be very advantageously sown at once in the border on the spot where they are to remain.

The seed must not be cast merely on the hard, dry soil of the border, but a little mellow leaf-mould or old well-decayed cow-manure be mixed up with the soil on the spots where the sowings are to be made.

Annuals in the border require daily watering.

FERNS.

In my opinion nothing can surpass in beauty a choice assortment of these plants tastefully arranged and in a healthy condition, and it seems strange, that the ornamental glass Fern-cases, now so common in England, have not been introduced generally into the halls and drawing-rooms of Calcutta, to which they would be admirably adapted. "Ferns of many kind," Mr. John Scott observes, "may be grown in bottle-houses, but for a general collection of tropical species glass structures are absolutely necessary in order that their young and tender fronds may be shielded from the scorching influence of the atmosphere throughout the hot season." There are notwithstanding several species which will thrive satisfactorily enough under the shade of a verandah among other potted plants, and it is by the contrast afforded by their foliage there that their beauty and grace can be more specially recognized perhaps than in any other situation. To confine them to bottle-houses, if intended for decoration, is unquestionably to sacrifice in a great measure the object for which they are grown.

The soil in which, according to my experience, Ferns thrive best is a mixture of cocoanut fibre and leaf-mould with sand. Mr. John Scott recommends a compost, one half pieces of charcoal of about the size of a bean, and equal parts of vegetable mould, sand, and potshreds and that repotting should be done in the old season.

They are usually grown in pots. Place three or four large pieces of brick at the bottom of the pot, so as to fill it more than a third way up. Upon these lay the cocoanut fibre, scattering it over with leaf-mould as the pot is gradually filled to the top. The Fern may then be planted, and a few large pieces of brick should be laid on the surface of the soil to keep it fixed and steady. With few exceptions they may be multiplied easily by division.

Ferns may also be raised from seeds. The plan perhaps best to be pursued is to fill a shallow pot with the materials and in the manner just described, finishing with a smooth layer of sandy leaf-mould within an inch of the top. Lower the pot into water to the rim, till the water, rising through the hole at the bottom of the pot, soaks the whole of the contents. Then take it out, scatter the spores lightly over the surface, and cover with a piece of glass. When the soil appears to be getting dry dip the pot again into water as before.

ORCHIDS.

* For the successful cultivation of the larger part of this most peculiar and delightful of plants, an atmosphere either naturally humid, or rendered so artificially is absolutely essential. In the arid climate of the Upper Provinces it is hopeless to attempt to grow them, and even in the comparatively damp region of Bengal their culture is attended with no more than what may be called partial success. The Khasiya Hills, Nepal, Assam, Java, and the locality of the Straits, are the native districts of large numbers, where the air is almost constantly saturated with moisture, and where they flourish in all their vigour and loveliness. In the locality of Calcutta there are a certain few only that can be cultivated with much satisfaction. Numbers, it is true, have from time to time been introduced and been seen to blossom beautifully; but it would be difficult as well as useless to enumerate them, as they have been here but the one season and gone the next. More especially may this perhaps be said of many of the superb species from tropical America and the Brazil which have been imported of late years. These for the most part live in a lower temperature than they can obtain in this country and their cultivation with success is as yet uncertain.

The following directions for propagating them equally applicable here as elsewhere are given by Mr. B. S. Williams in his work, 'The Orchid Grower's Manual.'

Some are easily increased by dividing them into pieces. Or by cutting the old pseudo-bulbs from the plants after the latter have done flowering. Such plants as *Dendrobium* are increased in this way. The best time for this is just as they begin to grow or when they are at rest. They should be cut through with a sharp knife between the pseudo-bulbs, being careful not to harm the roots. Each piece should have some roots attached to it. They should be parted and potted and receive no water till they have begun to grow.

Dendrobium nobile, *D. Pierardii*, &c., are propagated:—

"1. By bending the old pseudo-bulbs round the basket or pot in which they are growing.

"By cutting old flowering-bulbs away from the plants; laying them on damp moss, and, when they make roots, potting.

Dendrobium Aggregatum, *D. Denaisiforme*, and similar, are increased by dividing the roots.

Aerides: *Vanda*; *Angraecum*; *Saccolabium*; *Rexanthera*.

"1. Cut off the top of the plant just below the first root.

"2. Take young growth from the bottom of the plant.

Epidendrum; *Cymbidium*; *Calogyne*; *Cattleya*; *Bletia*; and many others.

"Divide into pieces with portions of the roots and attach a young bulb on the pseudo-bulb."

The period of the year when the plants are at rest is the same here as in England, that is to say, from the beginning of November to the end of February. The close of this period is considered the fittest time for repotting them,—just as they begin to start into growth. Some however, consider the month of June or July preferable for the purpose. Previous to potting it is laid down as indispensable that they receive no water for a few days. They should be elevated somewhat above the level of the pot. The principal point to be attended to is that they be provided with thorough drainage; for it is said that "although the plants are fond of moisture they never thrive, except the water has a free passage through the pot. But in connection with this it must also be remembered that here when they are in the condition of most vigorous growth it is the driest period of the whole year. At this season, therefore, when they are most craving of moisture, frequent waterings must be given them, to counteract the perfect state of dryness to which such thorough drainage would soon reduce them. And herein indeed seems to consist the main difficulty in their cultivation—the making the drainage effectual, and the compensating, by a reasonable fresh supply of water, for that which by evaporation and drainage is so soon withdrawn. The difficulty is removed of itself when the hot season is over and the rains have set in; But then a difficulty of just the opposite tendency occurs. The plants now do not dry soon enough. damp stagnates and mouldiness and rot ensues. The remedy is obvious,—abundance of fresh air, and all the ventilation possible.

For watering Orchids, when the collection is large, a brass syringe made for the purpose, is all but indispensable. They for the most part rest from growth during the two or three months of the cold season, previous to which watering should be gradually more and more abated from.

Different modes of growing them are adopted suited to the peculiar habit of each.

Some thrive best fastened with moss upon the bough of a tree or upon a log, some in open work baskets of wire or wood, and some few in pots.

When grown in pots, the system given by Sir J. Paxton, as that adopted by Messrs. Rollinson, is as follows:—

"Take a pot somewhat smaller than the one in which the plant is to be placed. Turn it upside down in the bottom of the said pot. This tends to fill up the pot, and assists the drainage very much—a very important object, as these plants will not thrive at all if allowed to become saturated with water. Put large pieces of potsherds into the bottom of the pot, then above these smaller pieces, then a layer of peat, and potsherds in succession till the pot is filled. On these materials the plant is placed.

"It will be loose and ready to tumble over, if of such kinds as *Cattleyas* or *Dendrobiums* to prevent which, thrust into the compost some stout sticks; and tie each pseudo-bulb to each stick firmly. These will secure the plant, and give it a neat, tidy appearance."

When grown in suspended baskets, the materials with which the baskets are filled will be much the same as those employed in the system of potting above given. Peat however, such as used in England, is not to be obtained in the plains of this country;

therefore what comes nearest to it, leaf-mould, with cocoanut fibre well-intermixed must be made use of in its place. Mr. John Scott informed me that the material he used was charcoal and cocoanut fibre exclusively with no corks.

For many, lighter kinds of material than the above mentioned should be employed. *Aerides*, *Vanda*, *Saccolabium*, *Vanilla*, *Epidendrum nocturnum*, and *Dendrobium formosum*, thrive better in moss than in soil.

THE ROSE.

Those who are really fond of "the Queen of flowers," and desire to possess a collection of the finest Roses, I most strongly recommend to procure them direct from England. There is no other way of obtaining them so cheaply or so satisfactorily. Most persons here who possess choice Roses seem anxious to keep them as much as possible exclusively to themselves; and the few choice ones which native dealers have at their disposal, including the now not uncommon one *Elise Sauvage*, they sell at as much as four or five rupees a plant—more than twice the cost at which they can be imported.

It is generally supposed that the procuring of Roses from Europe is attended with considerable expense. This is a great mistake. "Dwarfs," by which are meant Roses on their own roots, as those are called that are raised from cuttings or layers, as well as those which are budded on the stock beneath the soil, and "Dwarf-Standards," as those are called which are budded on stocks under two feet high, mostly cost a shilling each, and none except the very newest, that is, such as have been produced within the last two years, cost more than eighteen-pence. The cost of conveyance by Peninsular and Oriental Steamer of a package containing about fifty Roses is 2£. 14s. For case, and packing the nurseryman charges 5s. There is no duty upon them. From these items, then, it will be seen that for sixty rupees (6£.) a package of fifty of the finest Roses grown may be obtained.

The layering of many Roses may be performed at all seasons of the year, but with some few of the choicer kind, such as *Glorie di Dijon*, it will prove most successful in February.

Mr. Errington very kindly communicated to me the following happy method he has adopted for layering Roses. He plunges a pot filled with soil in the ground, at the place where the layer is to be made, and layers the Rose in the usual way. This is done in February, shortly before the hot season. He then places another pot upon the soil of the pot in which the layer has been made; half fills this upper pot with earth, and keeps the remaining half always filled with water. The water slowly trickles down to the layer below and keeps it constantly moist. The layer is ready to be cut by the beginning of the rains.

The best season for laying down cuttings of Roses is undoubtedly in November, by March they become nice little rooted plants, and may then be taken up and potted off. Cuttings of vigorous and healthy growth from the Tea-Roses *Devoniensis* and *Elise Sauvage* will, I have found, strike readily if put down in July during the rains.

I am indebted likewise to Mr. Errington, Head Gardener of the Agri-Horticultural Society, for the following particulars respecting his mode of raising Roses from cuttings. To strike them in he uses a mixture of one part of fine charcoal to three of sand. One advantage of this mixture, he says, is that the cuttings when struck, will continue growing and thriving; but that when struck in sand alone, they must be removed and potted in soil, or they soon die. He always uses slips with heels of the old wood. He takes care to lay the heel of the slip against the side of the pot, but not the whole length of the slip. He says the mixture cannot be passed too closely round the slips. He covers them with a bell-glass.

During one cold season I made experiments on striking cutting of Roses in bottles of water. The ones I attempted were the delicate Tea-roses, *Devoniensis*, *Elise Sauvage*, and *Peel Rose*, and with each I met with complete success. The following I found the points essential to be attended to:

The water must be perfectly clean and pure, and changed frequently to keep it so. Not more than one or two slips must be put in the same bottle, or the water will become corrupt and the slips rot.

The slips must be of the youngest growth, foot-stems of a flower that has just blossomed and fallen off.

The bottles should be placed on the north side of the house, or behind some screen where they may have plenty of light without sunshine, and be sheltered from wind.

An old box, without the lid, laid upon its side with the outer surface of the bottom facing the sun, serves admirably for putting the bottles in.

Small vials do not contain water enough; ten-ounce confectionery bottles should be used; tumblers will do, but are rather inconvenient.

It is exceedingly interesting to watch the cuttings gradually from their callus, as they will completely do in about three weeks, and then some time after emit one or two white silvery fibrous roots. As soon as they do this, they should be potted off at once.

The budding of Roses is performed with the greatest facility and success in the Upper Provinces, and by this method choice Roses may soon be multiplied there to any extent. The kind employed for a stock is the Rose Edouard, which grows there with great vigour, the bark yielding most freely to receive the bud. The operation may be performed in March, but much better at any time during the month of July and August.

In Bengal from the difficulty of finding a stock the bark of which will separate freely from the wood, budding is seldom or never attempted. I have not the least doubt, however, that by a proper way of proceeding, budding may be resorted to there also, as one of the most ready and satisfactory means of multiplying choice Roses.

When one has become possessed of buds of any valuable Rose an efficacious way of turning them to account would no doubt be by sacrificing any common young Rose plant by cutting it completely down, removing the soil, and inserting the buds upon the stump or upon the root, the bark of which will always yield readily.

Grafting, or more properly inarching, is the practice that has been almost uniformly adopted in Bengal for the propagation of the choicer kinds of Roses—in my opinion a very inferior mode of proceeding. The stocks employed for this purpose in the garden of the Agri-Horticultural Society are of the *Rosa-gigantea*, and the *China Rose Duc de Berri*.

Roses, raised either from cuttings or layers, will come into full perfection of bearing by the second season after they have been planted out, particularly if they have received liberal treatment. They do not like a wet, undrained soil, and as little do they like a dry and arid one. It is therefore best to plant them in a gently raised bed, from which the superabundance of wet during the rains may pass off; but as a situation of this kind subjects them to a greater degree of drought during the hot months, they must, at that season be, from time to time, liberally supplied with water.

General Jenkins in his M.S. notes gives the following plan:—"To make Roses blow every month: Have the roots taken up with plenty of earth before they are usually pruned and let them stand without water till they lose their leaves. Then give just enough to keep them alive, and when you wish them to blow, plant them in good mould. Pruned and watered a little they will blow in six weeks."

I can to some extent certify from my own experience to the efficacy of this plan. Roses love now and then an entirely new soil, and transplantation every year or two is the very best thing that can be done for them. When not transplanted, they should in October, after the rains are over, have their roots laid bare by the removal of the earth for two or three weeks, and then covered in with new soil well enriched with old cow-manure.

Surface-dressing during the months of December and January I have found of prodigious benefit, making the plants break forth with wonderful vigour. Drawing the earth away from the stem, so as to form a circular ridge at a foot's distance around it, I throw into the shallow basin thus formed a basket of fresh cow-dung, and from a considerable height pour water upon it. The water thus passes into the soil as a thick liquid manure. A fresh quantity of cow-dung is applied at the interval of about a month.

When well-cultivated, Roses appear to me to thrive and blossom far more satisfactorily in the open ground than they do in pots. A common mode of cultivating Roses, and one of which the natives are very fond, is to grow them in ring pots. These are earthen cylinders sixteen inches in diameter and two feet long, let in to the earth endwise about a foot deep, and filled with soil to within three inches of the rim. The method of the natives is to cut the Roses planted in these completely down to within two or three inches of the roots in October; a week or two later to remove the soil from the roots, and having left them exposed a few days, to fill in with a solution of oil cake, of the consistency of thick mud, very offensive to the nose at the time. The

plants under this treatment it is true blossom very beautifully a month or so afterwards, but it is a mode of cultivation that possibly would not suit every one's taste.

PLANTING, TRANSPLANTING, AND CUTTINGS.

PLANTING consists, for the most part, in transferring young shrubs or trees from the pots in which they have been growing, into the places in the open ground where they are permanently to remain. This, with many plants of a robust nature may be done almost indifferently at any season. But the two seasons more especially suited for the operation are at the setting in of the rains, and at the commencement of the cold season. As a general rule it may be laid down that plants, natives of this country, are planted out most successfully just previous to their breaking for their summer growth, a little after the commencement of the rains; while plants, natives of a colder climate, and that are in the greatest vigour of growth during the cold season, as Roses, for instance, should be planted about October. Most plants of the former class may, however, be planted out in February, but in that case those of a less robust habit demand a vast deal of attention, both in sheltering them from the sun, and in keeping them well watered during the hot months.

The usual method with *mallee*, if not looked after, when planting out a young shrub or fruit-tree, is to dig a hole in the ground only just large enough to receive the ball of earth in which the roots are contained; whereas the proper plan is to dig the hole as much as two feet in diameter, and a foot and a half deep for moderate-sized shrubs, and proportionately larger for those of a larger size and for fruit-trees. The soil that is taken out should be broken up somewhat small, and mixed with old stable refuse, decayed cow-dung, and rotten leaves, and then thrown into the hole again. If the ground be then drenched with water for a day or two previous, it will sink to the level at which it will remain, and the plant may be put down at once at its proper height without any fear of its crown becoming buried beneath the soil by subsequent sinking, as might otherwise happen. The plant should be copiously watered at the time and for some little time afterwards, when the soil becomes dry.

TRANSPLANTING.—There are few things in which the *mallee* will manifest his indolence more than when employed in transplanting. If not keenly watched, he will, to make easy work of it, begin digging round the plant almost close to the stem so that the ball of earth he has to take up, be as small as possible, cutting through or tearing away all the large long roots that come in his way, rather than extracting them carefully out.

In lifting a plant great care, and often much patience, are required, so that the roots sustain the least possible injury. It will sometimes however, unavoidably happen that the roots become so much broken or disturbed in the operation that the plant would suffer severely, if removed at once to the spot intended for it and immediately exposed to the sun and air. In such case it will be found advantageous to put it into as small a pot as will contain it, fill in the pot with soil, and well water it; then convey it to a darkened room, and keep it there during the day, bringing it out in the evening to remain in the open air and receive the benefit of the dew during the night. After a few days, it may be left out in some well shaded spot during the whole day, and in no great length of time when its wounded roots have become healed, it will bear any amount of exposure. It may then be shifted from its pot and planted in the place where it is intended to remain. The worst it will have suffered will be the temporary shedding of its leaves merely.

CUTTINGS.—Some plants may be propagated by cuttings at nearly all times of the year, but the majority most successfully in the rains. Some of our choicer plants, natives of a cold climate, and that are in vigorous growth only in the cold season, cannot be multiplied by cuttings successfully except at that season.

Some cuttings strike so readily that it is almost immaterial how they are put into the ground. But most cuttings, it has been ascertained, strike more readily by being inserted slopingwise in the ground, then when they are planted upright. Indeed, it is well to lay them so slopingwise, that their summits go not more than an inch high above the ground, and then earth up, and cover all but the two uppermost buds. The cuttings thus protected are not nearly so liable to become dried up and to perish as when almost their whole length is left exposed to the air.

The end of the cutting which is to be inserted in the soil should be cut across with a knife just below a leaf bud. Some gardeners are of opinion that slips strike more

readily than cuttings. A slip is a small shoot pulled off a plant at its point of junction with the stem bringing away with it a heel of wood and bark from the stem.

None of the leaves, or as few as possible, should be removed from the upper end of the cutting.

METHODS OF STRIKING AND SOIL.—A large number of the plants kept for distribution in the gardens of the Agri Horticultural Society are raised from cuttings laid down in common garden-soil during the rains in an open situation without shelter either from sun or wet weather. And possibly a situation thus exposed to the full action of the atmosphere is the very best for them; for, of all things, most baneful to cuttings is that tendency in the earth to become sour, which occurs during the rains in situations at all sheltered and secluded. The native nurserymen I have observed, to strike their cuttings, make use of a mellow spongy description of clay, seemingly the substratum thrown up in the cleaning of tanks. This appears to be singularly tenacious of wet and yet to have no tendency whatever to turn sour.

To propagate the choicest kinds of plants, however, a more careful mode of proceeding must be adopted.

Fill small pots with sand, place the cuttings close around the inside of them, sink the pots to the rim in the bed of sand, and cover them with bell glasses. When the cuttings are struck the pots may be taken out and other pots with fresh cutting fitted into their places. In this way, when the cuttings are removed, the bed of sand is not disturbed, as it would be were pots not employed. Moreover, it is maintained, cuttings strike far more readily by being laid in contact with the sides of the pots.

The sinking of the pots to the rim I consider of great importance; as one point essential to success in striking cuttings is that the soil in which they are inserted should, if anything, be of a somewhat higher temperature than the surrounding atmosphere. Where is it the pots be left above ground the evaporation that takes place through their porous sides must necessarily much reduce the temperature of the soil within them and so be very prejudicial to the cuttings.

Mr. Errington, Head Gardener of the Agri Horticultural Society, informed me that of some thousands of cuttings, he put down one year in pure sand, more succeeded; but that on the following year nearly all that he so put down, failed. He therefore had adopted the material employed in the Botanical Gardens, which, he said, uniformly proved efficacious; that is to say, three parts of sand to one fine charcoal. This then, in all cases will be the material safest to use. Notwithstanding, I fancy in the instance where Mr. Errington failed with sand only, the sand was not pure, as indeed, it hardly ever can be, when used just in the condition in which it is brought from the bed of the river. And the greater or less degree of impure matter incorporated in the sand may make all the difference in the cuttings, it which it is employed, not succeeding in one case and succeeding in the other. I have myself on occasions well washed the sand; and it needs only to do so to find out how impure, it is; but this is a very troublesome operation which admixture of a little charcoal renders needless as it is the nature of charcoal to collect all impurities.

[11] *The striking of cutting in water.* Dr. Landley says, is an old practice and gives a communication to the Gardener's Chronicle, to shew the manner of it:—

"I have verified by the roots and hang them in the windows of our small greenhouse, having filled them with clean soft water. I then put in slips of *Salvia*, *Chelidonia*, *Mumulus*, *Myrtle* or any thing I wish to propagate to the same description of plants, in about two or three weeks or a month, the little fleshy-like roots appear, and in a week or ten days I plant them in small pots well watered, they never seem to flag or mind the change, and I rarely lose a slip."

I have myself practised this method during the cold season with *Verbena*, *Habrochamnus*, *Salvia-Splendens* and *Roses*, and found no method more successful or less troublesome. The points to be attended to as most conducive to success I conclude to be the following:—

1. That the cuttings be the summits of the youngest shoots, in a state of vigorous growth at the time.
2. That capacious bottles be used, so that there be less likelihood of the water becoming foul.
3. That the water be changed often, to ensure its being quite pure.
4. That when changed it be tepid, so as to afford, in some degree, the bottom heat so essential for the speedy formation of a callus.

5. That the cuttings be sheltered from wind and sun, but otherwise have all the light and air possible.

6. That they be removed out of the cold air into the house at night; and, if the bottles be plunged half-way up in a tepid bath, probably so much the better.

[2.] I subjoin a few remarks by Miss Maling on the *striking of cuttings in sand and water*:—"Heliotropes, Verbenas, Lobelias and Begonias do most beautifully, as do any of the very young soft shoots, when planted in pans of silver-sand soaked and overflowed with a little sheet of water. Many hard-wooded plants, even hard to strike by other means, will grow in this way well.

"The shoots taken off as short as possible, and as fresh, and having only the lowest leaves snipped off, if necessary, near the stalk (not close to it) may be stuck in all over, and if put in a warm and sheltered place, as over a greenhouse-stove will grow most rapidly and make the most charming bunches of little fibry roots. These things will often strike even in small bottles of rain-water, the convenience of which is that they take up so little room. Previously to drawing out the little plants, it is well to soak the sand thoroughly, to avoid tearing the root-lets. The cuttings raised in sand must, as a rule, have their roots filled with sand, when they are first removed.

[3.] The method of *propagating by eyes or buds* is simply to take a plump shoot of the season, on which the leaves are healthy and the buds not yet started. About half an inch or less above and below a bud, cut the shoot slopingwise into the wood, so that the cut each way may meet just about a quarter of an inch behind the bud. The piece of the shoot with the bud upon it, just as it is, is planted firmly in a pan of sand with the point of the bud just visible above the surface. It is essential that the bud have a leaf attached to it, which should not be taken off. The sand is kept moistened and the pan covered with a pane of glass. This is a practice that has long been employed in England in raising plants of the Orange tribe, and has proved equally successful with Camellias and Roses.

[4.] *Propagation by layering*, though, generally speaking, a slower process than by cuttings, is a much surer one, for there are few plants which, when in a thriving condition, cannot be multiplied by this method. It is obvious, moreover, that larger and more advanced plants may be obtained by layers than by cuttings.

The operation is as follows: select a branch of ripened wood of the plant to be layered, that will bear being bent down to the earth without breaking. Cut the branch half through with a sharp knife just under one of the leaf-buds towards its extremity, and then pass the knife upwards, so as to slit the branch about an inch or two up. The slit-piece, with the leaf-bud at its extremity, called the "tongue" should be kept open by inserting a small piece of tile. Remove the earth to the depth of two or three inches from, or place a flowerpot over, the spot just where the tongue falls, on the branch being bent down, then carefully bend the tongued part of the branch into the earth, or into the flowerpot; secure it in that position by a peg, and cover it over with earth, which should be pressed down and watered. It is recommended to head down the branch when layered; but this is not always done. If the layer is put down in the month of February or March it is very essential that the soil be frequently watered, and never allowed to become dry and hard. What Mr. Rivers enjoins with regard to the layering of Roses may, no doubt, be considered applicable to all layered plants: "Have the tongue at the upper part of the shoot, so as not to be in the part which forms the bow as it is of consequence that it should be within two inches of the surface, so as to feel the effects of the atmospheric heat. Unless this is attended to, the roots will not be emitted quickly."

A modification of the above process, I have found attended with great success in layering some kinds of Roses and other plants, the boughs of which are too rigid to be bent down:—

Procure a flower pot which has had part of its side broken out, make a tongue in the branch to be layered, as before directed. Raise the flower pot up so that the branch, passing through the broken side, may have its tongued part just about two inches below the level of the soil, when the pot is filled in. Keep the flower pot permanently in this position by some support placed beneath it; insert a piece of tile in the pot where the side is broken away, and then fill in with a mellow soil composed of leaf-mould and sand, which must be kept constantly moist.

The mode of propagation by *Gouttes* is thus described by Mr. Masters, formerly the Calcutta Botanical Gardens:—

Dhobie's Account.

[illegible]

[illegible]

pres
cre
na

"Select a firm healthy branch, the wood of which is well-ripened; and immediately under a leaf-bud take off a small ring of bark, about one inch wide. Scrape the woody part well, so that no bark remains. Apply a ball of well-tempered clay; bind it on securely with tow or other soft bandage; make it fast to a stake, if necessary; hang a small pot, having a hole in the bottom, just over the socket; and supply it with water daily. In a few months you will obtain a new well-rooted plant.

"As the fibres are emitted from the buds that are above the wood, they will descend into the ball of earth and form roots. As soon as they are seen protruding themselves through the bandage, the branch may be cut off from the parent-tree, and planted where it is intended that it should remain. This appears to be the most expeditious method of obtaining strong well-rooted plants, and at the same time, is a sure method of procuring duplicates of any desirable variety. Of sixty-five Gooseos, made in June, of the *Jonesia* Assoc., the whole were well-rooted in October; while of forty-five layers made at the same time, and on the same individual tree, none were well rooted and some only just beginning to form. The *Lechea* requires four months to form good roots."

[6.] *The operation of inarching* is commonly called *gratting* here, and is always substituted for it, being performed with far greater certainty of success; but, except for *Mauas*, *Sapotas*, and a few other such trees, there is not often need to resort to it. Some of the choicer kinds of trees it is true, are frequently inarched but with due care, most thriving plants may be procured by means of cuttings of layers, if not by budding. The process is performed thus:—Secure a seedling, of about one or two years old of the plant to be inarched; where a seedling is not to be obtained, a rooted cutting of the same kind of the plant that is to supply the stock. Put it in a pot, and water it till it is established, but it will be ready to be operated upon. Slice away from one end of the young stem a piece of bark with a thin layer of the wood beneath it, about two inches long, so that it will come to a young stem of the plant to be inarched from, and then bring together the two stems that have thus been operated upon so that the cut parts be close in contact face to face and bandage them with cotton twine. In course of time, when the parts have united, bend down the stock and discover the scion from the parent plant by cutting it through below the bandage. The grafted plant must then be put somewhere in a shaded place and not removed from its pot till it has made vigorous growth, and stock and scion have become thoroughly incorporated.

HOUSEHOLD RECEIPTS.

TO TAKE STAINS OUT OF MARBLE—Take Oil of turpentine, one wine glass full; mix with a wine glass of turpentine. This mixture must be made into a paste with a little pipe-clay, spread the marble with this, which should last be removed for a few days, and if on wiping off, the object is not effected, a second application will generally be sufficient.

A SIMPLE AND EFFICACIOUS Mixture FOR DESTROYING WHITE ANTS—Is composed parts by weight of White Arsenic and Carbonate or Bicarbonate of soda. The arsenic is to be well pulverised and boiled gently for about an hour with the soda in water equal to 15 or 20 times in weight, when it will be ready for use. When required for the floor it should be well diluted.
